FOREWORD

India is a nation of immense diversity, with a substantial proportion of its population residing in rural areas where agriculture continues to be the principal source of livelihood. Among these rural communities, the Scheduled Castes (SC) population remains particularly vulnerable, facing persistent socio-economic constraints arising from limited access to productive resources, small and fragmented landholdings, and inadequate exposure to modern agricultural technologies. As per the Census of 2011, Scheduled Castes constitute 16.6 percent of the country's total population, of which nearly 76.4 percent reside in rural areas and depend largely on agriculture and allied sectors for their sustenance.

Recognising the need for targeted and inclusive interventions, the ICAR–Central Institute for Cotton Research, Nagpur, has been implementing the Scheduled Castes Sub Plan (SCSP) programme since 2019.This programme is being carried out across six districts of the Vidarbha region of Maharashtra and one district in Tamil Nadu, with a clear focus on enhancing livelihood opportunities and strengthening farming systems among the marginalized communities.

Through the concerted efforts of a multidisciplinary team of scientists, a wide range of need-based, technology-driven interventions have been introduced. These include improved crop production practices, soil health management, farm mechanization, horticultural development, livestock-based interventions, and the promotion of integrated farming systems. Such holistic approaches have enabled diversification of income sources, improved resource-use efficiency, and enhanced resilience of farming systems.

The programme has primarily targeted resource-poor and below poverty line SC households in selected villages. Beneficiaries were identified through a transparent process based on valid documentation such as SC certificates, Aadhaar cards, and ration cards. While a small proportion of beneficiaries owned agricultural land, a significant number are landless and depend on livestock and allied activities for their livelihoods. The interventions implemented under this programme have contributed meaningfully to improving income levels, generating sustainable livelihood opportunities, and strengthening the socio-economic security of these vulnerable households.

I place on record my sincere appreciation for the dedicated efforts of the SCSP Implementation Team, whose commitment and field-oriented approaches have played a pivotal role in the successful execution of this programme.

This publication is a significant step towards documenting the outcomes, lessons learned, and best practices emerging from the implementation of the SCSP initiatives. It is expected to serve as a valuable resource for researchers, policymakers, development practitioners, and other stakeholders engaged in the design and implementation of inclusive agricultural development programmes.

Looking ahead, there is a pressing need to scale up such targeted interventions through convergence of institutional support, policy alignment, and strengthen public–private partnerships. Emphasis must be placed on enhancing access to technology, capacity building, market linkages, and financial inclusion for marginalized communities. A region-specific, cluster-based approach integrated with sustainable and climate- resilient farming practices will be critical in ensuring long-term impact. The SCSP framework, when effectively implemented and scaled, holds immense potential to transform rural livelihoods, reduce socio- economic disparities, and contribute to the broader goal of inclusive and equitable agricultural growth in India.

PREFACE

The empowerment of Scheduled Caste community has been a top priority of the Indian state since independence. To accelerate this process, the Government of India introduced the Scheduled Castes Sub-Plan (SCSP), directing states to take necessary steps for its effective implementation. According to the guidelines of the Planning Commission, only those schemes that ensure direct benefits to individuals or families belonging to Scheduled Castes (SCs) should be included under the SCSP. This scheme aimed improving livelihood of SC farm families in developing agriculture and allied activities such as animal husbandry, dairy, and other livelihood sources are also emphasized to support the SC population.

The SCSP is being implemented by Indian Council of Agricultural Research – Central Institute for Cotton Research, Nagpur, along with its Regional Research Station at Coimbatore, Tamil Nadu. According to the Socio-Economic and Caste Census 2011, nearly 73% of SC households were among the most deprived rural households in India. The main objective of this plan is to promote developmental programmes for Scheduled Castes in relation to their land holding and to increase productivity and income from their limited resources. The scheme aims to improve income levels of the targeted population through income-generating activities, skill development, and infrastructure support.

The programme was implemented in selected Pradhan Mantri Adarsh Gram Yojana (PMAGY) villages across six districts of Maharashtra viz., Nagpur, Wardha, Amravati, Yavatmal, Chandrapur, and Bhandara—where the Scheduled Castes population is 50% or more. Additionally, the scheme was implemented in Perambalur district of Tamil Nadu. Beneficiary families were identified with the support of state government agencies. Programme planning was carried out at the institute level and implemented by committee members in the adopted villages. Scientific support included technology dissemination, technological interventions, capacity building, exposure visits, training programmes, interface meetings, and skill development activities.

Several activities were undertaken in the adopted villages to provide direct benefits to Scheduled Castes beneficiaries under the SCSP scheme. These included skill development programmes, training workshops, and the distribution of agricultural and livestock inputs such as goats and goat feed, improved cotton cultivation practices, CICR Bt cotton varieties, improved seeds of paddy, red gram, chick pea and wheat, fertilizers, vegetable seed kits, bio-fertilizer kits, and power weeders. Printed material on improved cotton cultivation practices was also distributed.

Farmers were sensitized throughout the year on scientific cotton production and complete package of practices of kharif and Rabi crops, including seed selection and crop management. Based on resource assessment and characterization of SC community areas across different tehsils, the implementation committee undertook concerted efforts to enhance the income of small and marginal farmers as well as landless labourers. This publication highlights some of the key interventions like scientific goat rearing and color cotton production for value chain capture that proved successful through participatory demonstrations and have the potential for further scaling up through various development programmes.

Knowledge is now recognized as key input for future prosperity of various agriculture and allied sectors. Accordingly, it was felt necessary to develop a comprehensive document by bringing together at one place and empowering marginalized farming communities and promoting inclusive agricultural development, which would be of great interest for the future workers.

We dedicate this book to the Scheduled Castes Community.

Authors

ACKNOWLEDGEMENTS

It was a delight to bring out this book entitled “Improving rural livelihood and farming system through Scheduled Castes Sub Plan in the States of Maharashtra and Tamil Nadu”. Scientists from different disciplines and two states came together on a common platform for its compilation.

The authors are deeply indebted to Dr.Vijay N Waghmare, Director, ICAR-CICR, and Dr. Y. G. Prasad, former Director, ICAR-CICR, for their support throughout all stages of the project and for their keen interest in ensuring the successful implementation of the SCSP programme.

The DAPSC/ SCSP team also express sincere thanks to the scientists working under SCSP, officials of the Department of Agriculture, and the project staff including Mr. Akshay Kamble (Technical Assistant), Mr. Vijay Gaikwad, and Mr. Ashvin Meshram (YP-1) for their valuable contributions. The Scheduled Castes beneficiary families and members of the local Gram Panchayats highly appreciated the team's efforts.

CICR DAPSC team acknowledged the editorial assistance of Sh. Shailesh Borkar, and editorial team.

The authors are indebted to the ICAR and Ministry of Agriculture and Farmer's Welfare for financially supporting time bound under SCSP fund.

EXECUTIVE SUMMARY

The Scheduled Castes Sub Plan (SCSP) erstwhile DAPSC is a centrally sponsored scheme implemented by ICAR–CICR, Nagpur, aimed at promoting the socio-economic empowerment of Scheduled Caste (SC) communities through agriculture and allied activities. The programme focuses on technology dissemination, capacity building, input support, and demonstration of improved agricultural practices through training and skill development initiatives. Recognising the vital role of women in agriculture, special emphasis was placed on mobilising women from SC families and enhancing their participation through awareness programmes, training sessions, and skill development activities. These initiatives helped address the challenges faced by farmwomen and enabled them to adopt improved and women-friendly technologies. Under the SCSP project, a structured action plan was developed with key objectives to increase the income of SC families, enhance agricultural productivity through scientific interventions, and strengthen capacity building through training and knowledge dissemination.

The implementation of various agricultural and allied activities not only improved farm productivity but also generated year-round employment opportunities in rural areas. A wide range of interventions were carried out in the adopted villages to provide direct benefits to SC beneficiaries. Improved crop varieties were widely distributed, including cotton varieties CICR Rajat BT and CICR Suraj BT (166 farmers); Paddy varieties PKV-Tilak, CO-51, and Shriram (489 farmers); Red gram varieties PKV-Tara and BDN 716 (2796 farmers); Soybean (321 farmers); Chickpea variety Jaki-9818 (1999 farmers); and Wheat variety MACS-6222 (925 farmers). These interventions significantly contributed to improved productivity and farm income. Livelihood support activities included the distribution of goats (local breed & Osmanabadi breed) and along with feed to 512 beneficiaries. Agricultural input support was a major component of the programme, with Crop protection (pesticide) kits benefiting (2905 farmers), Biofertiliser kits benefiting (4170 farmers), and Pusa biofertiliser kits benefiting (241 farmers). Fertilisers such as DAP (395 farmers), MOP (140 farmers), NPK (10:20:26) (680 farmers), and Urea (228 farmers) were also distributed. Pest management interventions included pheromone traps for bollworm control (1266 farmers) and Trichocards (1058 farmers). Support for farm operations and post-harvest management included Tarpaulins (680 farmers), Vermicompost units (800 farmers), Irrigation pipes (362 farmers), Battery operated knapsack sprayers (775 farmers), Manual Twin Wheel Hoe (193 farmers), Manual Grubber Weeder (193 farmers), Manual Stalk Uprooter (193 farmers), Grain Storage Bin (147 farmers), Cotton picking bags (1417 farmers), and Power weeders at the Gram Panchayat level. High-Density Planting System (HDPS) in cotton was demonstrated to 105 farmers to enhance productivity.

To improve nutritional security, Vegetable seed kits were distributed to 2270 farmers and 150 households for backyard kitchen gardening. Additional interventions included Citrus plant kits (75 farmers), Cattle feed and mineral salt blocks (120 beneficiaries each), and Cotton stalk shredders for farmer groups. Safety and livelihood support initiatives included Pesticide protection kits

(1609 farmers), hand tools such as Sickles (299 farmers), LED torches (687 beneficiaries), Bicycles (115 beneficiaries, including 39 men and 76 women), Sewing machines (90 women beneficiaries), Student kits (99 students), Milk cans (120 beneficiaries), and Nutrient kits (500 farmers). Community-level support included RO water ATM units in 4 villages and water purifiers for 71 beneficiaries, along with ration kits for 120 beneficiaries. A strong emphasis was placed on training and capacity building, with 6543 farmers, including women and youth, benefiting from various training programmes conducted during 2019–2025 at ICAR–CICR, Nagpur.

The impact of the programme was also evident in Tamil Nadu, where SCSP interventions in cotton cultivation among 50 farmers led to a significant increase in productivity. The average yield increased from 3.50 quintals per acre in 2022–23 to 6.02 quintals per acre in 2023–24 (1.40-fold increase), along with an expansion in cultivated area from 69.57 acres to 87.82 acres (1.26-fold increase).

Overall, the SCSP (DAPSC) initiative has made a substantial impact by improving agricultural productivity, enhancing livelihoods, and empowering SC communities. The successful interventions demonstrated under this programme have strong potential for scaling up in other regions.

1. INTRODUCTION

Development Action Plan for Scheduled Castes (DAPSC) is actually a conglomeration of various schemes being run by different ministries for the welfare of Scheduled Castes.

Formerly known as Special Component Plan (SCP) and then Scheduled Caste Sub Plan (SCSP), the initiative was rebranded as Development Action Plan for Scheduled Castes (DAPSC) in 2017 following NITI Aayog guidelines. It is a Centrally Sponsored Scheme managed by the Ministry of Social Justice & Empowerment. The main goal of this scheme is to improve the socio-economic conditions of SCs, reduce poverty, provide skill development, create infrastructure, and foster self-employment to bring income levels at par with the general population. In general, the socio-economic conditions of the Scheduled Castes are very poor in India. They often face several challenges like poverty, lack of education, social customs, and discrimination in day-to-day life. A total of thirty-one states and union territories in India are home to the country's Scheduled Castes. The government has implemented various policies to improve the living conditions of the Scheduled Castes and fulfil their basic needs. Out of a total population (124904071) in Maharashtra, 54.78% of the population lives in the urban area, and 45.22% lives in the rural area. Scheduled Castes (SC) and Scheduled Tribes (ST) constitute 11.81% and 9.35% Maharashtra's total population, respectively. According to the Socio-Economic and Caste Census 2011, nearly 79% of ST households and 73% of SC households were the most deprived among rural households in India. While 45% of SC households are landless and earn a living by manual casual labour, the figure is 30% for scheduled tribes. A village with more than 50% of the SC community's population has been identified in each district. In Maharashtra State, Nagpur, Wardha, and Amravati. Yavatmal, Chandrapur, and Bhandara, and in Tamil Nadu, the Perambalur district were selected by ICAR-CICR for the implementation of the SC Sub Plan. In this regard, ICAR-CICR was also provided with guidelines and financial support to carry out the under DAPSC. The plan started in the last quarter of 2019-20 and continues during the current financial year (2025-2026).

1.1 Key Components and Funding Rules

The scheme funded for four primary activities, each with specific financial mandates:

- Income Generating Schemes: Assistance is provided through institutional finance and subsidies. The maximum subsidy is 10,000 per beneficiary (or 50% of project cost, whichever is less).
- Skill Development: Utilization of at least 10% of released funds for skill training, with a target of 70% placement in wage or self-employment.
- Infrastructure: Utilization of up to 30% of funds for infrastructure, prioritizing PMAGY villages, atrocity-prone areas, and aspirational districts.
- Monitoring and Evaluation: Provision of utilizing up to 3% of funds for supervision, with 1% specifically allowed for State SC Corporation administrative expenses.

1.2 Special Provisions

- Women: Provision of dedicated 15% of funds to economic schemes for SC women, to make up 30% of skill development participants.
- Disabled Persons: Earmarking of 5% of funds for economic schemes for disabled SC persons.
- North Eastern States: Earmarking of 2% of the total budget for NE states.

1.3 Special Central Assistance:

Department of Social Justice & Empowerment implemented a Centrally Sponsored Scheme, "Special Central Assistance (SCA) to Scheduled Castes Sub Plan (SCSP)" since 1980 for the development of Scheduled Castes (SCs) who form the major chunk of the countrie Population living below the poverty line. The Special Central Assistance (SCA) was conceptualized to provide an added thrust to the Scheduled Castes Sub Plan (SCSP) and the Tribal Sub Plan (TSP) to accelerate the socio-economic development of the Scheduled Castes and Scheduled Tribes. Special Central Assistance is provided to State Governments/UT Administrations as an additive to their Scheduled Castes s Sub-Plan (SCSP). The main objective of SCA to SCSP is to give a thrust to development programs for the Scheduled Castes, with reference to their occupational pattern and the need to increase productivity and income from their limited resources. Special Central Assistance (SCA) to Scheduled Castes Sub Plan (SCSP) is a central scheme under which 100% grant is provided to States/UTs as an addition to their Scheduled Castes Sub Plan (SCSP). Funds are distributed based on SC population (40%), relative backwardness (10%), and effort-based criteria related to SCSP coverage and annual plan outlays (50%). The primary objective is to bridge the gap in socio-economic development between the SC population and the rest of the population by ensuring that funds are allocated in proportion to the SC population, both in physical and financial terms.

The objective of the SCSP/ DAPSC is to provide additional support to Below Poverty Line (BPL) SC families to enhance their productivity and income.

1.4 Implementation Committee

A multi-disciplinary scientific team have been constituted under the guidance of the Director, ICAR-CICR, Nagpur to implement the SCSP scheme in Maharashtra and Tamil Nadu. Each scientific team with a Nodal Officer was allocated a cluster of five to six villages in tehsil places of Nagpur district and in Tamil Nadu to carry out socio-economic development activities. The Scientific Teams have implemented the activities in collaborations with State Agricultural Departments, Village Gram Panchayat and Local Self help groups. The selection of villages and beneficiaries were done as per the guidelines provided under the scheme.

1.5 Selection of Villages and Beneficiaries:

The selection of villages and beneficiaries were done based on the SC-dominated population in PMAGY villages. These villages are mainly depended on agriculture & allied activities for their income and livelihoods. Only SC beneficiaries were selected under each activity assessing their needs, technological gaps, available resources, etc. In Maharashtra State, Nagpur, Wardha, and Amravati. Yavatmal, Chandrapur, and Bhandara, and Peramblur district in Tamil Nadu, were selected by ICAR-CICR for the implementation of the SCSP Scheme. In this regard, ICAR-CICR was also provided with guidelines and financial support to carry out the activities. The plan was implemented since the last quarter of 2019-20 and continued during the current financial year (2025-2026). To accomplish the objectives following activities were carried out with a special focus on SC communities of SC-dominated villages.

2. Socio-Economic Profile of the Identified Districts

The ICAR-CICR, Nagpur has implemented the SC Sub Plan program, with financial support from the scheme during 2019 in six districts of the Vidarbha region of Maharashtra, namely Nagpur, Wardha, Amravati, Yavatmal, Chandrapur, and Bhandara, and in the Perambalur district of Tamil Nadu State.

2.1 Maharashtra:

The Nagpur district comprises the Nagpur Municipal Corporation, 10 municipalities, 13 panchayat samitis, and 778 gram panchayats. The total area covered is about 9897 sq. km. of which Nagpur city accounts for 217.65 sq. km. (2.2%). Nagpur district is bounded by Bhandara district to the east, Chandrapur district to the southeast, Wardha district to the southwest, Amravati district to the northwest, and Chhindwara district of Madhya Pradesh to the north. It is located at the north latitude of 21.07 and east longitude of 79.07. According to the 2011 census, Nagpur district has a population of 40.51 lakh, ranking 29th in India out of 640. The district has a population density of 470 inhabitants per square kilometer. Its population growth rate over the decade 2001-2011 was 14.39%. Nagpur district has a sex ratio of 948 females per 1000 males and a literacy rate of 89.52%. The climate of Nagpur is tropical, with a rainy season from June to mid-October, due to the monsoon, and a dry season from mid-October to May. The rains usually end in early or mid-October. Nagpur District has approximately 6,44,000 hectares classified as cultivable agricultural land. Agriculture plays a significant role in the local economy, and the land use pattern reflects this, with a substantial portion of the area dedicated to farming. The district primarily has black cotton soil, rich in clay and retaining moisture well. Around 20,965 hectares were dedicated to orange cultivation, and approximately 5 lakh tonnes of oranges were produced in the district. This type of soil is ideal for growing cotton and other crops such as soybeans and pulses.

Wardha district stretches over an area of 6309 Sq. Km. In terms of area, Wardha district constitutes 2% of Maharashtra State's total area. The total population of the district according to the 2001 census was 1,236,736 of which 638,990 were males and 5,97,746 were females. Of the total population, 74% is residing in rural areas, and 26% is residing in urban areas. The population density according to the 2001 census was 213 persons/Sq. Km. the district of Wardha is bounded by Nagpur district in the northeast and Chandrapur district in the southeast. Most of the district lies within the Wardha River basin. Lower Venna, Lower Wardha and Upper Wardha are the major dams in the district. Wardha is an agricultural district. Soybean and pigeonpea are the district's principal crops. Pigeon pea is cultivated throughout the district along with soybean and cotton.

The cotton crop is the district's main cash crop, occupying about one-third of the total cultivated land. Sugarcane cultivation is on the rise in some talukas. Oranges and bananas are also grown in some areas. Amravati is a city in the state of Maharashtra, India. It is the second-largest city in the Vidarbha region of Maharashtra, after Nagpur.

The district primarily has agriculture as the main occupation. Amravati is located at 20.9320° N, 77.7523° E. It has an average elevation of 343 metres (1125 Feet). It lies 156 m west of Nagpur and serves as the administrative centre of the Amravati District and the Amravati Division. Amravati has a tropical climate. In winter, Amravati receives much less rainfall than in summer. In Amravati, the average annual temperature is 26.7 °C. The annual rainfall is 1052 mm. summers are dry and hot. The warmest month of the year is May, with an average temperature of 34.9 °C. Amravati is the main cotton-growing region. It is growing as an Industrial center, with cotton Mills leading the way.

Yavatmal is located between 19.26' and 20.42' north latitudes and 77.18'and 79.9'east longitudes. It has an average elevation of 445 meters (1125 Feet). It lies 156 km (97 Mi) west of Nagpur and is the administrative centre of the Amravati Division. The name is derived from Marathi: Yavat means "mountain", and mal means "row". In Yavatmal, the average annual temperature is 26.8 °C. The rainfall here averages 946 mm. According to the 2011 census, Yavatmal district had a population of 27,72,348. Its population ranking was 141st in India (out of 640) and 21st in the state (out of 35). The district had a population density of 204 inhabitants per square kilometre (530/sq. Mi). Its population growth rate over the decade 2001–2011 was 12.9%. Yavatmal had a sex ratio of 947 females per 1000 males and a literacy rate of 80.7%. 11.8% of the population is from the Scheduled Castes, 18.5% from the Scheduled Tribes. Yavatmal is the main cotton-growing region. It is growing as an Industrial centre, with cotton Mills leading the way. Tur is also produced in large numbers. Another major crop grown in bulk in the district is soybeans. Yavatmal is one of the highest producers of soybeans in Maharashtra, in terms of area under cultivation.

Chandrapur district, formerly known as Chanda district, is situated in the Nagpur Division of Maharashtra, India. Once the largest district in India, it was divided in 1981 when the Gadchiroli and Sironcha tehsils were separated into distinct districts. As of 2011, the district had a population of 2,204,307. Chandrapur district lies between 20 ° 43' and 19 ° 27' North Latitude and 79 ° 59' and 78 ° 48' East Longitude. The Wainganga, Wardha, and Irai are the

district's major rivers. It has a border on the north with Nagpur, Wardha & Bhandara districts; Yavatmal and Nanded on the west, Gadchiroli to the east, and Adilabad of Andhra Pradesh to the south. The total area of the district is 11443 sq. ft—Kms, which is about 3.5% of the total area of Maharashtra State. At the time of the 2011 census of India, Chandrapur district had a population of 2,204,307, which was 1.96 per cent of Maharashtra's population. The district population density was 193 inhabitants per square kilometre (500/sq mi). Between 2001 and 2011, the district's population grew by 6.43 per cent. Chandrapur has a hot and dry climate.

December is the coldest month, with a minimum average temperature of 9 °C and a maximum average temperature of 23.2 °C. May is the hottest month with a mean maximum temperature of 43 °C and a mean minimum temperature of 28.2 °C. Rice is the district's primary crop. Chandrapur ranks fourth in rice production within the State. Wheat is a marginal crop in Chimur. Sorghum is also produced to a certain extent. Cotton is grown in the Wardha River basin. Sesame is also harvested on a large scale in this district. Bhandara district, situated in the Nagpur division of Maharashtra, covers an area of 3,717 square kilometres and had a population of 1,200,334 according to the 2011 Census, with 6,05,520 males and 5,94,814 females. The district has a growth rate of 5.56% and an urban population of 19.48%. Bhandara features a mixed economy, with key sectors including agriculture, industry, and forestry. It is renowned for its extensive rice production, with Tumsar being a prominent rice market. Bhandara town is famously known as the "Brass City" due to its substantial brass products industry. Bhandara district is located between 20.39° and 21.38° North Latitude and 79.27° and 80.42° East Longitude. It is predominantly situated within the Wainganga basin and is bordered to the north by the Wainganga and Bawanthadi rivers. The district shares its northern boundary with the Seoni and Balaghat districts of Madhya Pradesh. It is surrounded by Chandrapur district to the south, Gondia district to the east, and Nagpur district to the west. Covering an area of 3,716.65 square kilometres. According to the 2011 Census of India, Bhandara district has a population of approximately 1,200,334, with a gender ratio of 961 females per 1000 males. Around 80% of the population lives in rural areas, while 20% resides in urban areas. The district has a young population, with a high birth rate reflected by a significant number of children aged 0-6 years. The literacy rate in Bhandara is 83.76%, with male literacy at 90.76% and female literacy at 76.49%. The weather in Bhandara district is extreme in all seasons, with summer temperatures reaching 45 °C and winter temperatures falling to 8 °C.

2.2 Tamil Nadu:

Perambalur district has an area of 1757 sq. km., spread between 10.54' and 11.30' degrees Northern latitude and 78.40' and 79.30' degrees Eastern longitude. The district comprises four blocks: Perambalur, Veppanthattai, Veppur, and Alathur, with 121 Village Panchayats, one Municipality, Perambalur and four Town Panchayats: Arumbavur, Kurumbalur, Labbaikudikadu, and Poolambadi. This district is one of the drought-prone backward districts in Tamil Nadu. The major crops grown in this district are cotton, maize, paddy, sugarcane, pulses, onion, and oilseeds. Cotton occupies the major share in cultivation, covering about 40,000 hectares, and approximately 35% of the gross sown area is dedicated to cotton cultivation. According to the 9th Agricultural Census, Scheduled Castes farmers (a total of 29,164 SC farmers) in this district hold about 16,668 hectares of land, with 50% of them being small and marginal farmers. The major crops grown by these farmers include cotton, maize, pulses, and oilseeds. Villages such as Kudikadu, Anukkur, Thevaiyur, Neikuppai, Keelaperambalur, and Elamnallur, which fall under the Veppanthattai, Veppur, and Perambalur blocks of Perambalur District, were selected. In Thevaiyur, the total population is approximately 4,655 of whom 2,416 belong to the Scheduled Castes (SC) community, comprising 1,232 males and 1,184 females. Among the SC community, there are about 352 farming families, with 150 being male farmers and 202 female farmers. In Neikuppai, the total population is approximately 3,359 of whom 1,168 belong to the Scheduled Castes (SC) community, comprising 599 males and 569 females. Among the SC community, there are about 419 farming families, with 180 being male farmers and 239 female farmers. In Keelaperambalur, the total population is approximately 5,413 of whom 2,450 belong to the Scheduled Castes (SC) community, comprising 1,227 males and 1,223 females. Among the SC community, there are about 590 farming families, with 275 being male farmers and 315 female farmers. The total population in these three villages are approximately 13,427 with 6,034 belong to the Scheduled Castes (SC) community, comprising 3,058 males and 2,976 females. Among the SC community, there are about 1,361 farming families, with 605 male farmers and 756 female farmers, while the remaining population is involved in daily wage labor. However, farmers from this community are not aware of better crop production technologies such as seed selection of best cotton hybrids, nutrient management, particularly the role of micronutrients in cotton production, pheromone technology, identification and management of major insect pests and diseases affecting cotton production, biological control of crop pests, and Integrated Pest Management (IPM). To address the above-mentioned issues in the selected villages, 50 representative farmers were identified (Beneficiaries were identified with the help of ICAR - Hans Roever KVK, Perambalur) from Kudikadu, Anukkur, Thevaiyur, Neikuppai, Keelaperambalur and Elamnallur villages,

They were trained in advanced cotton production technology through a series of lectures and provided with critical inputs.

Identified the district of Tamil Nadu under the SC Sub Plan

Details of selected villages of Tamil Nadu under SC Sub Plan (2011 Census)

Sr. No.	Name of Village	Taluka	District	Population	Households	SC Population	Male	Female
1	Thirani	Kunnam	Perambalur	2,699	731	904	439	465
2	Anukkur	Veppanthattai	Perambalur	3,903	1,131	644	327	317
3	Thevaiyur	Veppanthattai	Perambalur	4,655	1,281	2,416	1,232	1,184
4	Neikuppai	Veppanthattai	Perambalur	3,359	981	1,168	599	569
5	Keelaperambalur	Kunnam	Perambalur	5,413	1,428	2,450	1,227	1,223

3. Project Details

3.1 Problem identification:

The socio-economic profile of the villages is assessed by the Participatory Rural Appraisal (PRA) tools 2. Focus Group Discussions (FGD) and 3. Primary Survey of the villages. The team members made a preliminary visit to all villages. Participatory Rural Appraisal (PRA) is a methodological approach that enables farmers to analyze their own situation and develop a common perspective on village-level agriculture. PRA is an assessment and learning process that empowers farmers to create the information base they need for participatory planning and action. Focus Group Discussions were organized among farmers, agricultural laborers, women groups, and youth to identify problems and solutions in a participatory manner. The main problems identified are

a) Low crop yields
b) Low income
c) Youth unemployment
d) Market price fluctuation
e) Lack of tarpaulins for drying grains between harvest and marketing
f) Lack of appropriate farm machinery like, pumpsets, sprayers, improved cultivators
g) Lack of skills to engage in alternative income sources like livestock rearing and off-farm and non-farm activities
h) Improved varieties of crops and livestock breeds, etc.

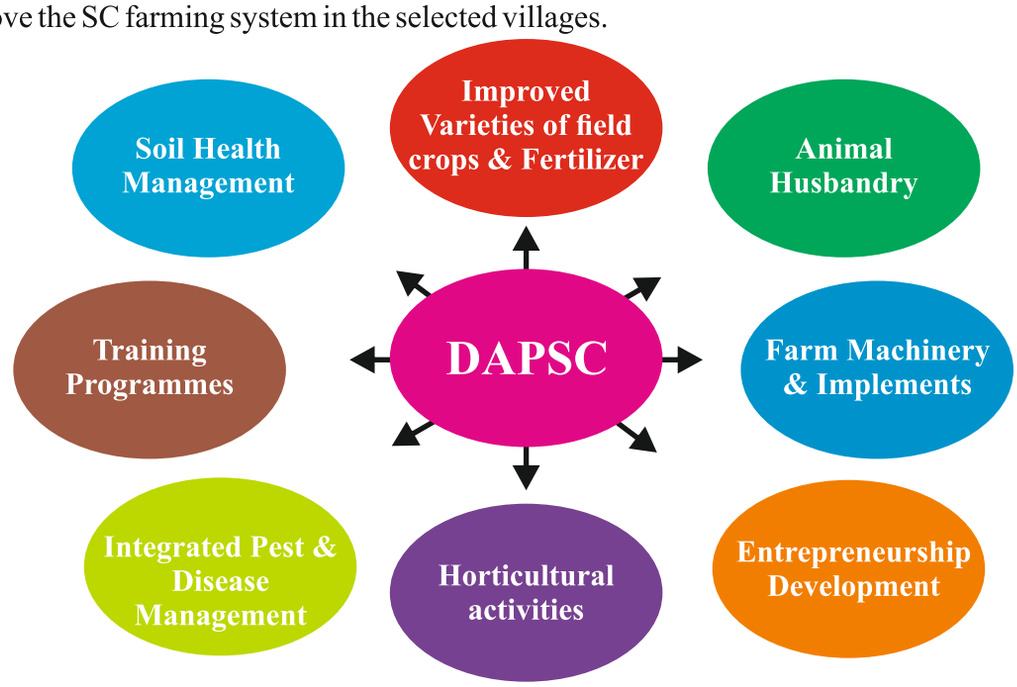

The primary survey was conducted through interviews to elicit quantitative data from farmers.

3.2 The main objectives are as follows:

1. **Increase Income Levels:** Elevate the income of SC families through targeted income-generating schemes, skill development, and infrastructure improvement.
2. **Enhance Agricultural Productivity:** Provide technological support and scientific guidance to increase productivity and improve agricultural practices.
3. **Capacity Building:** Offer training and workshops to build skills and knowledge, empowering the SC community, especially women.

3.3 Strategies for the improvement of the SC farming community

Villages are selected based on the SC-dominated population. These populations mainly depend on agriculture & allied activities for their income and livelihoods. Only SC beneficiaries were selected for each activity, based on their needs, technological gaps, available resources, etc. In Maharashtra State, the villages selected under the SC Sub Plan programme are Amboli, Dhurkheda, Godhani, Khursapar, Pavani, Pipardol, Thombara, Tirkhura, Wadegaon, Welsakhara of Umred Taluka, Amti, Bodkhipeth, Dhanla, Dongargaon, KanheriDongarmoh, Khobana, Sawarkhanda of Kuhi Taluka, Khapri, Salebhatti of Bhiwapur Taluka, Sonapar of Kalmeshwar Taluka, Bhajipani, ChikhliMaina, Mendhepathar, Wadvihara of Katol Taluka, Borgaon of Kampthi Taluka, Hingna, KhairiPanjabrao, Rampuri, Sillori of Saoner Taluka, Sonpur in Ramtek Taluka, Parsodi in Parsheoni Taluka and Khadki in Narkhed Taluka of Nagpur district, respectively. Chondi Bahadarpur, Savlapur in Arvi Taluka, Kavatha, Durgada, Pimpalgaon Lute, Nandpur, Shekapur, Chitki of Deoli Taluka, Mangaon, Salapur in Samudrapur Taluka of Wardha district, respectively. Palwadi, Husenpur, Sultanpur, Katsur in Teosa Taluka, MorshiKhurd, Wedhapur of Warud Taluka, PoharaPurna of BhatkuliTaluka and Naigaon in Daryapur Taluka. Gandhinagar, Malkapur, Sharad of Kalamb Taluka of Yavatmal district. Bandar of Chimur Taluka. In Tamil Nadu State, Kudikadu, Anukkur, Thevaiyur, Neikuppai, Keelaperambalur and Elamnallur villages, which are under the Veppanthattai, Veppur and Perambalur blocks of the Perambalur district. To accomplish the objectives, the following strategies were adopted to improve the SC farming system in the selected villages.

DAPSC Approach

4. Activities Undertaken in the Villages

4.1 Improved Quality Seed Distribution:

Cotton, red gram, soybean, and paddy are major kharif crops in the SCSP villages. Generally, farmers in villages cultivate local varieties that experience poor-quality seed and terminal moisture stress, resulting in low yields. The need is to create awareness of improved, high-yielding seed varieties at scale to promote wider adoption and improve the production and income of smallholder farmers. Crop production depends mainly on the quality of the seed used and on climatic conditions and other inputs. Due to the higher cost of quality seeds, farmers tend to use any available seed, even if it is compromised. In this context, scientists from ICAR-CICR discussed with farmers and introduced improved varieties of field crops. The ICAR-CICR Nagpur conducted cotton demonstrations under the SCSP during the 2020-2021 Kharif season, aiming to promote advanced cotton farming techniques among farmers, especially in rainfed areas. As part of the initiative, quality BT cotton seeds, including ICAR-CICR Suraj Bt and ICAR-CICR Rajat Bt, were distributed to 166 farmers, along with bio-fertilizers to enhance the effectiveness of the technologies. Each demonstration covered 1 acre, allowing farmers to apply these ICAR-CICR technologies directly to their fields. The farmers were made aware the benefits of BT cotton varieties and its reuse in the next sowing season in comparison to Hybrids. Overall, this initiative helped farmers adopt modern, sustainable farming practices, leading to increased productivity and better resource management. The program successfully impacted 166 farmers, providing them with the knowledge and tools to improve cotton farming practices in the long term. Demonstration of high-density planting system (HDPS) 90×15 cm and closer spacing (90×30 cm) in farmers' field, seed provided under SC Sub Plan, such as RCH-929, benefitted 19 farmers for HDPS and RCH-971 (Swift) benefitted 37 farmers for closer spacing during the year 2024 by improving their production and income.

Demonstration and distribution of Red gram seed for diversification and intercropping in cotton as well as sole cropping to Scheduled Castes farmers. This initiative focused on enhancing the productivity of red gram by introducing improved agricultural practices through Cluster Front Line Demonstrations (CFLDs). The program was implemented across multiple districts, including Nagpur, Wardha, Chandrapur, Bhandara, Yavatmal, and Amravati, benefiting a total of 2,574 farmers from 2020 to 2025. Farmers received 4 kg of seed each, along with bio-fertilizers for seed treatment, which helped in promoting sustainable farming practices and reducing resilience to chemical inputs. Demonstrations showcased the effectiveness of Integrated Pest Management (IPM) practices, improving pest control and overall crop management. The program also provided on-field training and expert advice from scientists, encouraging the adoption of improved technologies such as better seed varieties—PKV-Tara, Phule Rajeshwari, and BDN 716.

Along with quality seed, better crop management practices and newer technologies were disseminated to improve soil health, enhance productivity, and support sustainable farming practices, so as to enhance the crop yields and income of farmers in these regions.

An improved variety of soybean (JS 20-69) was also distributed to the SC farmers. It is an early-maturing variety that ripens in 94 days. It can achieve high yields even under adverse conditions. This is a multi-resistant variety, resistant and tolerant to biotic diseases such as yellow mosaic, charcoal, rot, blight, bacterial spot, foliar spot, stem fly, wheel beetle, and leaf eater. By this intervention, 321 farmers benefited in the selected villages. The distribution included high-quality paddy varieties such as CO-51, PDKV Tilak, Shriram, CR 201, MTU 1010, IR 64, and Sadhana, with each bag containing 30 kg of seed intended for one-acre demonstrations and Integrated Pest Management (IPM) practices in paddy in selected villages of Nagpur, Chandrapur, and Bhandara districts, benefiting 126 Scheduled Castes farmers. The program also featured frontline technology demonstrations, including improved prop tillage, proper seed rates, balanced fertilizer doses (100 kg N + 40 kg P_2O_5 + 20 kg K_2O/ha), optimal irrigation methods, weed management, and protection measures. Farmers were provided with better-quality seeds, biofertilizers for seed treatment, and essential fertilizers, along with guidance on pest control. The initiative placed special emphasis on farmers' economic development and raising awareness about advanced agricultural technologies. Over the period from 2021 to 2023, the program successfully benefitted a total of 489 farmers during the kharif season, contributing to the adoption of more efficient and sustainable farming practices in the region.

Distribution of cotton seed to SC farmers

Distribution of paddy seed to SC farmers

Distribution of redgram seed to SC farmers

Distribution of soybean seed to SC farmers

During the Rabi season, farmers from SCSP villages cultivate chickpea and wheat crops. The program was implemented across a 1749-acre area in the SCSP villages of Nagpur, Wardha, Chandrapur, Bhandara, Yavatmal, and Amravati district, from 2021 to 2024. Each demonstration was carried out on 1 acre of plot, with prevailing cultivation practices serving as the local check. The initiative introduced improved technologies, such as chickpea-wilt-resistant varieties, line sowing, integrated nutrient management, and timely weed removal. The selected chickpea varieties, JAKI 9218 and Digvijay, are resistant to root rot and are suitable for both timely and late sowing. Additionally, the seeds were treated with Trichoderma viride (5g/kg) to combat fungal diseases such as wilt and root rot, and inoculated with Rhizobium and phosphorus-solubilising bacterial bio-fertilisers (20g/kg) to improve nitrogen fixation and phosphorus availability in the soil. Farmers were guided on the importance of timely sowing, proper seed treatment, and integrated crop management practices. These interventions led to higher yields, as farmers realised that improved management practices could significantly enhance chickpea productivity. A total of 1749 farmers benefited through this intervention, which not only improved yields but also promoted sustainable farming practices. The initiative demonstrated that with the right guidance and technology, farmers could improve both productivity and overall farm health, ensuring better long-term economic outcomes.

Chickpea seed variety (Jaki-9218) is packed in 30 kg bags. Distributed one bag to each Scheduled Caste farmer for the Rabi season. This variety is resistant to wilt, root rot, and colour rot and matures in 93-125 days. The seed was distributed to Durgada, Welsakhara, Thombara, Amboli, Tekari, Khobna, Bodakipeth, Khapari, Amti, Sawarkheda, Sillori, Pipardol, Tirkhura, Pauni, Sonapar, and Wadegaon villages of SCSP in October & November 2021. A total of 450 farmers benefited from this intervention. Wheat variety Phule Samadhan, MACS-6222, packed in 40 kg bags. One bag was distributed to each Scheduled Caste farmer for the Rabi season in villages across Nagpur, Wardha, Chandrapur, Bhandara, Yavatmal, and Amravati districts. As part of the initiative, 40 kg of MACS 6222 wheat variety was distributed to each participating SC farmer. The MACS 6222 variety is known for its high yield potential but is also highly susceptible to diseases and pest infestations. In traditional farming practices, farmers used a higher seed rate per hectare than recommended, resulting in higher cultivation costs. The program aimed to address these challenges by promoting wheat varieties with high yield potential, resistance to diseases and pests, and The recommended seed rate for sowing. By adopting these improved varieties, farmers could increase yields, reduce cultivation costs, and gain better protection against pests. The main goal of the intervention was to raise farmers' awareness of the benefits of new seed varieties and encourage them to integrate these practices into their farming. A total of 775 farmers benefited from this program during the Rabi season in 2021 and 2024.

By applying the recommended practices and varieties, these farmers were expected to see improved yields and better economic outcomes.

Dr. Y.G. Prasad, Former Director, ICAR-CICR distributed chickpea and wheat seed to SC farmers

Distribution of chickpea (left) and wheat (right) seed in SCSP villages

4.2 Distribution of critical inputs of fertilisers

The fertiliser requirement of individual beneficiary in respect to NPK (10:26:26), Urea, DAP and MoP was identified after interacting with the beneficiary farmers from Kavtha, Nandpur, Chitki, Pauni, Shekapur, Amti, Pimpalgaon Lute, Durgada, Welsakhara, Thombara, Godhani, Dhurkheda, Amboli, Kuhi, Bandar, Tekari, Khobna, Bodakipeth, Khapari, Pipardol, Sillori, Sawarkheda, Tirkhura, Sonapar and Wadegaon villages and distributed during 2021 to Scheduled Castes farmers for kharif and rabi season. This intervention helps farmers raise awareness and use fertilisers to achieve higher yields and produce high-quality crops. A total of 680 farmers of (NPK), 228 farmers of Urea, 395 farmers of DAP and 140 farmers of MoP benefited respectively.

Distribution of fertilizers in SCSP villages to SC farmers

4.3 PUSA Bio-Fertiliser Kit

Bio-Fertiliser kit having powder-based and liquid-based fertilisers, namely Bio Azatobacter Powder, Rhizobium Powder, Biophas Powder, Biopotash Powder, Biozinc Powder, Bioiron Powder, Mycorhiza Powder, Azatobacter Liquid, Biophos Liquid, Biopotash Liquid, Biozinc Liquid, Bio-iron Liquid, Smpoorn Liquid. 241 SC farmers benefited from this intervention in the villages of Amboli, Godhani, Pipardol, Welsakhara, Khobna, and Bodakhipeth.

4.4 Bio-fertilizer Kit

Distributed Bio-fertilizer Kit in the years 2020, 2021, 2023 & 2024 in SCSP villages of Amboli, Amti, Bandar, Chitki, Dhanla, Dhurkheda, Durgada, Girad, Godhani, Kawatha, Kesalwada, Khapri, Khobna, Bodkhi Peth, Kuhi, Nandpur, Pauni, Pipardol, Pimplagaon Lute, Sawarkheda, Sillori, Shekapur, Sonapar, Sonpur, Tekari, Thombra, Tirkhura, Wadegaon, Welsakhra. The Bio-fertiliser Kit contains 4 items: Rhizobium, PSB (Phosphate-Solubilising Bacteria), Azotobacter, and Trichoderma. A total of 3,270 SC farmers benefited through this intervention.

Distribution of Bio-Fertilizer Kit to SC farmers

4.5 Integrated pest and disease management

Integrated Pest Management (IPM) in cotton involves using all available techniques to manage pest populations, to reduce pesticide use while maintaining profitability, yield, and fibre quality. IPM is a practice for improving the quality of the environment, and the quality of an IPM programme depends on its environmental friendliness. A good IPM programme would necessarily lead to effective integrated crop management. Agricultural ecosystems worldwide are facing unprecedented challenges due to the increasing intensity and frequency of insect pest outbreaks, driven not only by the expansion of global trade but also by the impacts of climate change on pest biology and distribution. These pests can significantly compromise both the quantity and quality of crop production. Crops are attacked by several insect pests and pathogens from sowing until harvest, causing extensive losses. However, small and marginal farmers generally lack the resources to control pests in their crops. Realising the adverse effects of pesticides on the environment and the

The fear of high levels of toxic insecticide residues, which are unsafe for human consumption, has been addressed through eco-friendly approaches such as the use of pheromone traps. These are easy to use and the most economical and environmentally friendly approach to managing insect pests. Pheromone traps with lures and light traps were provided to farmers under the SC Sub Plan for the management of insect pests. A total of 1266 farmers benefited through this intervention.

Distribution of Pheromone traps with lure and light traps to SC farmers

Demonstration of Pheromone traps in farmers' field

4.6 Pesticide protection kit

Organised a Training-cum-Distribution Programme on Pesticide Protection Kits under the SC Sub Plan (SCSP). The programme aimed to raise farmers' awareness of the safe and responsible use of pesticides and to minimise health hazards associated with chemical exposure during farm operations. As part of the initiative, each farmer was provided with a Pesticide Protection Kit, which included Gumboots, Helmets, Gloves, Masks, Goggles, and Aprons, ensuring comprehensive safety during pesticide application. This initiative reflects

ICAR-CICR's ongoing commitment to enhancing occupational safety in agriculture, particularly among marginalised farming communities, is achieved by combining scientific knowledge dissemination with practical support. A total of 1600 farmers benefited from this intervention, which provided hands-on training in proper pesticide handling techniques and the importance of using the Pesticide Protection Kit.

Distribution of pesticide protection kit to SC farmers'

4.7 Vegetable seed kits for kitchen gardening

Farmers prefer vegetable cultivation due to its quick and high returns, and several vegetable crops are included in crop diversification. Vegetables are very important in human nutrition as they are rich sources of vitamins, minerals, fibre and nutraceuticals. Distributed vegetable seed kits to SC farmers across SCSP villages in Nagpur, Wardha, Chandrapur, Bhandara, Yavatmal, and Amravati districts. The vegetable seed kits comprise improved varieties of cucumber, hybrid bottle gourd, hybrid brinjal, cowpea, cluster bean, chilli, ridge gourd, and coriander. The main objective is to make each household self-sufficient in vegetables and improve their health. They should also grow all the required vegetables for their family on their farm or in their backyard for balanced, diversified nutrition. Through this intervention, they were encouraged to cultivate a diverse range of organic vegetables without using any chemical pesticides. Over the years, this intervention has been successful in meeting the vegetable requirement year-round. This also ensured the involvement of women farmers. A total of 1720 farmers benefited from this intervention from 2020 to 2023. This intervention not only provided quality seeds but also helped farmers incorporate modern agricultural techniques to improve crop yields, diversify their farming activities, and boost their income. Vegetable Plant-Based Kit procured from

ICAR-IIHR, Bangaluru, and distributed to 150 vegetable-growing SC farmers; Citrus Plant-Based Kit distributed to 75 citrus-growing SC farmers, which was also procured from ICAR-IIHR, Bangaluru, under this programme.

Distribution of vegetable seed kit to SC farmers'

4.8 Management of farm produce

Farmers from SCSP villages are facing a major problem with crop management for harvested farm produce, as they have to store, dry, and cover it from unseasonal and unpredictable rains. This issue was addressed effectively by the ICAR-CICR team by providing farmers with tarpaulins. Due to this intervention, farmers are happy and store their farm produce in safe, dry places, such as cotton and paddy, resulting in heavy losses. Some farmers are using these tarpaulins to protect their kaccha houses during heavy rainfall. A total of 650 SC farmers benefited in the villages of Bodakhipeth, Khobna, Sonapar, Pipardol Amboli, Tirkhura, Chikhali Maina, Wadvihara, Khadaki, Parsodi, Khairi Punjab, Durgada, Amboli, Tirkhura, Welsakhara, Pipardol, Chikhali Maina, Husenpur, Sultanpur, Katsur, Mangaon, Salapur, Gandhinagar, Malkapur, Sherad of Nagpur, Wardha, Amravati and Yavatmal districts.

Distribution of tarpaulins by Dr. Y.G. Prasad, Former Director, ICAR-CICR to SC farmers'

Distribution of tarpaulins in SCSP village

4.9 Farm machinery and implements for farm mechanization

Farm mechanization plays a critical role in increasing agricultural productivity. Mechanization has been well received in India as an important element of agricultural modernisation, enhancing agricultural productivity and, consequently, rural prosperity. Farmers need to choose the most appropriate power source for each operation, depending on the work to be done and who is performing it. The level of mechanization should meet their needs effectively and efficiently. Women play an important role in many farming-based communities, and in some countries, up to 80 per cent of the total farm labour comes from women. This implies that power sources (human, animal or motor-based) need to be adapted to such necessities from an ergonomic, social, cultural and economic point of view. The reduction of drudgery is a key element of sustainable mechanization and helps reduce women's heavy workload by considering technologies suited to their needs and improving their access to appropriate farm power. Timeliness of

Agricultural operations are crucial for coping with climatic variability, especially during sowing and intercultural operations. Timely sowing operations will help maximise benefits in variable climates. Promoting appropriate agricultural machinery for critical operations is important in rainfed situations. The SCSP team of ICAR-CICR has conducted a focus group discussion with SC farmers on the identified need-based farm machinery and implements. Based on the discussion, purchased the implements under SC Sub Plan and distributed to SC farmers such as power weeder, paddy thresher, battery operated knapsack sprayers, irrigation pipes, centrifugal self priming mono block pump, manual grubber weeder, manual twin wheel hoe, manual stalk uprooter, animal drawn improved vakhar for different agricultural operations in farmers field in the district of Nagpur, Chandrapur, Wardha, Yavatmal, Amravati. A total of 1600 SC farmers benefited through this intervention. The main aim of distributing this material effectively is to improve their livelihoods. A small hand tool, a sickle, was also procured and distributed for multi-purpose use to 650 SC farmers in the villages of Bodakhipeth, Khobna, Pipardol, Amboli, Tirkhura, Sonapar, Welsakhara, Khapri, Khairi Punjab, Chikhali Maina, Mendhepathar, and Palwadi. They were very happy to get a small tool for use on their fields, especially for women.

Distribution of farm machinery & implements by Dr. Y.G. Prasad, Former Director, ICAR-CICR to SC farmers'

4.10 Livestock interventions as a livelihood resource for the SC Community

The major crops grown in SCSP villages are cotton, paddy, soybean, and pigeonpea in kharif, whereas wheat, gram, etc., are grown as rabi crops. The cultivation of these crops is heavily dependent on rainfall. Thus, animal husbandry activities, such as goat rearing, play an important role in supplementing the family income of small/marginal and landless SC farmers in rural areas. ICAR-CICR organised training cum distribution programme on "Goat Farming for the Livelihood Improvement of Farmers" under the SCSP scheme at the Punyashlok Ahilyadevi Mendhiva Sheli Vikas Mahamandal (Govt. of Maharashtra) in Bondri, Ta. Ramtek, District, Nagpur, and PohraBandi, Ta. Dist. Amravati. The primary objective of the programme was to equip farmers with the knowledge and resources necessary to improve their livelihoods and economic conditions through goat farming. The training highlighted goat farming as a valuable tool for entrepreneurship development and economic upliftment. Key aspects such as housing, feeding, and management of goat units were thoroughly covered, ensuring a well- rounded approach to animal care. In addition to theoretical training, the programme featured practical demonstrations in which experts supervised the goats' feeding and health management. Farmers were also provided with valuable guidance on improving the growth and health of their animals. A balanced feed formula was shared to help the farmers prepare proper nutrition for their goats.

As part of the initiative, each beneficiary received 2 healthy female goats (average weight of approximately 30 kg) and 50 kg of feed for the goats. This distribution aimed to give farmers a strong starting point in goat farming, empowering them to establish a sustainable source of income. By combining hands-on training with the provision of goats and feed, the programme has the potential to improve farmers' livelihoods and economic conditions significantly. Through goat farming, participants can not only fulfil their daily needs but also explore opportunities for entrepreneurship. As a result of this activity, a total of 411 Scheduled Caste farmers benefited in the selected villages of Nagpur, Bhandara, Chandrapur, Yavatmal, and Amravati districts. Rearing small ruminants, i.e., goats, can prove to be a boon for sustaining the livelihoods of the landless and marginal farmers and provide large-scale self-employment opportunities.

Goat rearing in the SCSP villages provides income and nutritional security to SC farmers and improves their social status.

Distribution of goats along with feed to SC farmers'

4.11 Vermicompost Bed

Under the Scheduled Castes Sub Plan (SCSP), the ICAR-Central Institute for Cotton Research (CICR) undertook a significant initiative in 2022–2023 by distributing vermicompost beds to 800 Scheduled Castes farmers. The objective of this intervention was to promote sustainable, eco-friendly farming practices by encouraging on-farm production of organic manure through vermicomposting. Each beneficiary received a vermicompost bed unit, enabling them to convert organic waste into nutrient-rich compost using earthworms. This initiative not only supports environmentally responsible agriculture but also helps improve soil health, reduce dependence on chemical fertilisers, and enhance the livelihoods of marginalised farming communities. Through this effort, ICAR-CICR reaffirmed its commitment to inclusive agricultural development and the empowerment of Scheduled Castes farmers.

Distribution of vermicompost bed to SC farmers

4.12 Cattle feed and Mineral salt block

Distributed cattle feed and mineral salt blocks to 120 Scheduled Castes farmers. This initiative aimed to improve livestock nutrition and health, which are critical components of integrated farming systems and rural livelihoods. The support provided included high-quality cattle feed and essential mineral salt blocks, ensuring balanced nutrition for livestock and enhancing their productivity. By addressing the nutritional needs of farm animals, this intervention contributes to increased milk yield, better animal health, and ultimately, improved income and food security for marginalised farming families. This initiative reflects CICR's holistic approach to empowering Scheduled Castes farmers through both crop and livestock-based interventions.

Distribution of cattle feed and mineral salt block to SC farmers

4.13 Vegetable seed kits for kitchen gardening

Soil Health Card (SHC) is a Scheme launched by the Government of India on 19th February 2015. Under the scheme, the government plans to issue soil cards to growers, which will carry crop-wise nutrient and fertiliser demand for individual farms, helping growers improve sustainability through judicious use of inputs. The soil health card provides farmers with information on the nutrient status of their soil, along with recommendations on appropriate nutrient dosages to improve soil health and fertility. Hence, efforts were made to organise a training-cum-distribution programme on Soil Health Cards as part of its outreach and capacity-building initiatives under the Scheduled Castes Sub Plan (SCSP). The programme aimed to raise farmers' awareness of the importance of soil health management and the effective use of Soil Health Cards to improve crop productivity and promote sustainable farming practices. Soil samples were collected from farmers' fields, and based on laboratory analysis, individualised Soil Health Cards were prepared. These cards provide crop- and soil-specific nutrient recommendations, enabling farmers to make informed decisions regarding nutrient management and soil fertility. A total of 54 farmers from Nagpur district participated in the programme and received their Soil Health Cards. The soil health card contains information regarding the status of soil with

respect to 12 parameters, namely N, P, K (Macro-nutrients); S (Secondary nutrient); Zn, Fe, Cu, Mn, and B (micro-nutrients); and pH, EC, and OC (Physical parameters). Based on this, the SHC will also indicate fertiliser recommendations and the soil amendments required for the farm. The card will contain an advisory based on the soil nutrient status of a farmer's holding. It will show recommendations for the dosage of different nutrients. Further, it will advise the farmer on the fertilisers and their quantities he should apply, as well as the soil amendments he should undertake, to realise optimal yields. Through this initiative, ICAR-CICR reaffirmed its commitment to empowering farmers by disseminating scientific knowledge, promoting resource-efficient practices, and supporting sustainable agricultural development.

4.14 Distribution of Sewing Machines to SC Women

Under the Scheduled Castes Sub Plan (SCSP), the ICAR-Central Institute for Cotton Research (CICR) Supported 60 rural Scheduled Castes women by distributing high-quality sewing machines as part of its livelihood enhancement initiative. The primary objective was to encourage self-reliance among women by enabling them to engage in tailoring garments. This programme aimed to promote income-generating opportunities for women through skill development and self-employment. By providing sewing machines, the initiative empowered beneficiaries to take up tailoring and small-scale garment production, thereby contributing to household income, economic independence, and women's empowerment in rural areas. This intervention highlights CICR's commitment to inclusive rural development by creating avenues for sustainable livelihoods beyond traditional agriculture, especially for women from marginalised communities. In addition to distributing the machines, the programme

also included basic orientation and awareness on tailoring techniques, sewing machine maintenance, and market linkage opportunities to help the women utilise the equipment effectively and sustainably. This intervention not only provided an alternative source of income but also significantly enhanced women's participation in economic activities, thereby improving their social standing, financial independence, and confidence. By focusing on non-farm income-generating activities, CICR expanded the scope of its SCSP interventions beyond agriculture, reflecting a holistic approach to rural upliftment. This effort contributes to the broader goal of empowering women from marginalised communities through skills development, resource support, and livelihood diversification.

Dr. Y. G.Prasad, Former Director, ICAR-CICR distributing sewing machine to SC womens

4.15 Distribution of Water Purifier

ICAR-Central Institute for Cotton Research (CICR) undertook a significant initiative to improve access to safe drinking water by distributing water purifiers for the Scheduled Castes communities under the Scheduled Castes Sub Plan (SCSP). The provided water purifiers are gravity-based units equipped with ultrafiltration (UF) technology, which effectively removes harmful bacteria, cysts, and suspended impurities from water. By facilitating the adoption of non-electric filtration systems, the programme aimed to significantly reduce the incidence of waterborne diseases such as diarrhoea, cholera, and typhoid, which disproportionately affect marginalised rural populations. This intervention not only improved the overall health and well-being of beneficiary households but also reduced medical expenses and enhanced productivity by reducing illness-related absenteeism. The programme exemplifies ICAR-CICR's commitment to integrating appropriate technology with community outreach under the SCSP framework, thereby empowering Scheduled Castes communities through sustainable improvements in health and hygiene. A total of 71 beneficiaries benefited through this intervention.

Dr. Y. G. Prasad, Former Director, ICAR-CICR distributing water purifier to SC community

4.16 Installation of Water ATM RO Plant

Installed Water ATM RO (Reverse Osmosis) Plants in four villages with significant Scheduled Castes populations under the Scheduled Castes Sub Plan (SCSP). These Water ATM systems are designed to provide safe, clean, and affordable drinking water through a coin- based or smart card-enabled dispensing mechanism, ensuring 24/7 access to purified water. The RO technology effectively removes contaminants, salts, and microbial impurities from water, addressing both health and taste concerns commonly found in rural water sources. The installation of these community-level purification systems aimed to tackle the widespread issue of unsafe drinking water, which often leads to waterborne diseases and associated health complications in under served areas. Each Water ATM is strategically located for maximum accessibility and is managed with community participation to ensure regular maintenance and sustainability. Awareness campaigns and training were also conducted in the villages to promote hygienic water storage practices and encourage proper usage of the facility.

This initiative has significantly reduced rural households' dependence on unregulated water sources and improved the overall public health environment in the selected villages. It also contributed to reducing healthcare costs, enhancing community well-being, and promoting equitable access to a basic necessity. The programme reflects CICR's commitment to holistic rural development by integrating technology-driven solutions with community empowerment under the SCSP framework.

Tehsil: Narkhed

Installation of Water ATM RO Plant in SCSP Villages

4.17 Distribution of Bicycle for Boys Students

Under the Scheduled Castes Sub Plan (SCSP), the ICAR-Central Institute for Cotton Research (CICR) supported 39 students from Scheduled Castes communities by distributing men's bicycles to facilitate easier access to education. This initiative was aimed at addressing the challenge of long travel distances to schools and colleges, which often becomes a barrier to regular attendance and academic performance in rural areas. By providing bicycles, CICR sought to reduce travel time, ensure punctuality, and encourage continued education among students from marginalised backgrounds. The provided bicycles are durable, easy to maintain, and suited to rural terrain. This simple yet impactful intervention not only improved the students' mobility and attendance but also positively influenced their academic engagement and overall motivation to continue their studies.

This initiative aligns with CICR's broader objective of empowering Scheduled Castes communities through educational support by removing practical barriers that hinder learning opportunities. It also contributes to promoting equity in access to education, which is foundational for long-term socio-economic upliftment.

4.18 Distribution of Bicycle for Girls Students

Distributed women's bicycles to 76 girl students belonging to the Scheduled Castes communities. This initiative was designed to improve access to education by addressing the mobility challenges faced by rural girl students who often travel long distances to reach their schools or colleges. The provision of women-specific bicycles ensured comfort, safety, and usability, particularly suited for adolescent girls commuting in rural terrain.

The intervention aimed to promote regular school attendance, reduce dropout rates, and encourage educational continuity among girls from marginalised backgrounds. In addition to improving mobility, the initiative contributed to building confidence and independence, helping create a more supportive environment for female education. By reducing the transportation barrier, CICR's efforts align with national goals for gender equality in education. It reflects its commitment to the holistic empowerment of Scheduled Castes communities through targeted, need-based interventions.

Distribution of bicycle to SC boys & girls students

4.19 Distribution of Ambar Charkha

Distributed 10 Amber Charkhas along with solar kits to a "Sakhi Saheli women's Self Help Group (SHG)" comprising Scheduled Castes members. This initiative aimed to empower rural women through sustainable, skill-based livelihood opportunities by promoting traditional cotton spinning integrated with clean energy solutions. The Amber Charkha, a modern spinning wheel, enables efficient yarn production and, when powered by solar energy, ensures uninterrupted operation even in areas with limited or unreliable electricity. The provision of solar kits not only enhances the usability of the charkhas but also promotes the adoption of eco-friendly, renewable energy technologies in rural settings. Along with the distribution, the women received hands-on training in charkha operation, handling solar kits, basic maintenance, and producing high-quality yarn. This holistic support enabled the group to initiate income-generating activities, strengthen their economic independence, and contribute to the local cotton value chain.

This initiative reflects CICR's commitment to women's empowerment, the adoption of clean energy, and sustainable rural livelihoods within Scheduled Castes communities. By integrating traditional skills with modern technology, the programme offers a model for self-reliant, community-based enterprises that align with both economic and environmental goals.

Distribution of Ambar Charkha to SC womens

4.20 Distribution of Milk Can

Distribution of Milk Can to the SC beneficiaries on 21st February, 2024, in the villages of Pipardol, Amboli, Welsakhara, Godhani, Wadegaon, Tirkhura, Dhurkheda, Ta. Umred, Chikhali, Maina, Mendhepathar, Wadvihara, Ta. Katol Dist. Nagpur & Salapur, Ta. Samudrapur, Dist. Wardha. Used for transporting milk from farms and homes to markets, plastic milk cans serve other decorative and utilitarian purposes, both indoors and outdoors. These cans are usually used for carrying gallons of milk at a time. The cans have handles attached on either side to make loading and unloading convenient. Available in a variety of materials, including stainless steel, plastic, and aluminium, these are highly durable and corrosion-resistant. A total of 106 SC farmers benefited from this intervention (98 male & 8 female).

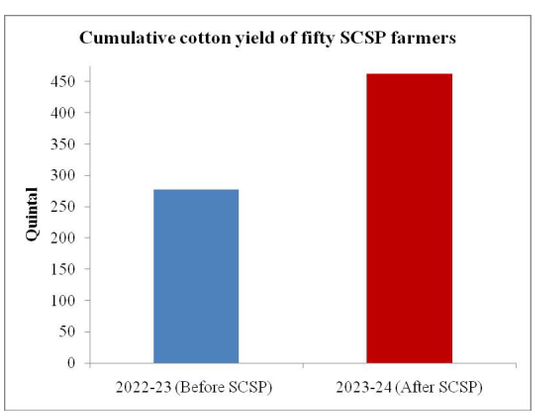

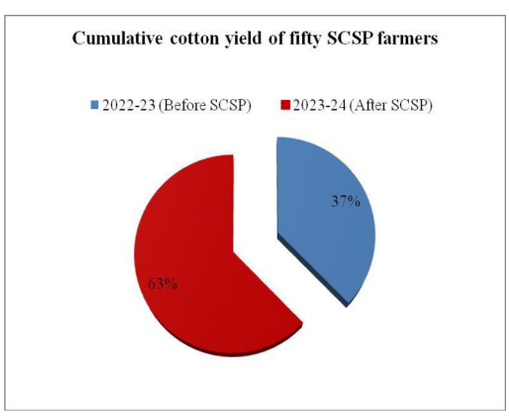

Distribution of milk cans to SC farmers

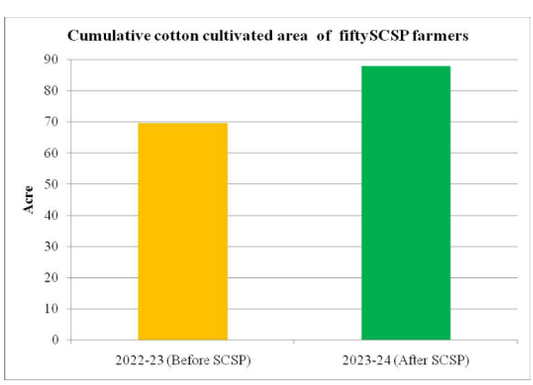

4.21 Activities undertaken in the Perambalur District of Tamil Nadu

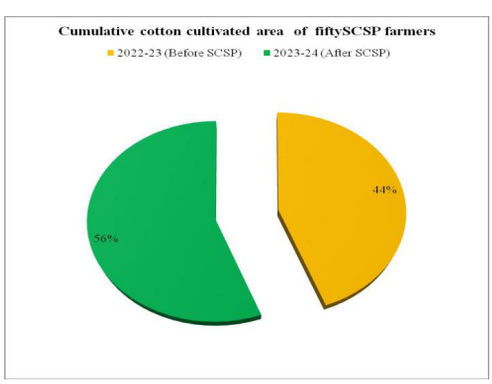

In selected villages of the Perambalur district of Tamil Nadu, the critical needs of the farmers were identified through a baseline survey. Most of the farmers cultivated cotton under rainfed conditions in the selected area. Survey results revealed that farmers were not aware of proper and methodological crop production techniques, such as time of sowing, varieties to be chosen, integrated nutrient management practices, weeding operations, timely intercultural activities, integrated pest and disease management strategies, time and method of harvesting, management of leftovers after harvest and marketing of the produce. To address the critical needs of the farmers and educate them about integrated crop management practices in cotton cultivation, a detailed technical programme was formulated. To improve the productivity and sustainability of cotton production as well as cultivation, the selected beneficiaries in the

The project area was adequately supported through a series of technical lecture presentations and training programmes by concerned cotton experts in the specified areas, such as varietal selection, improved agronomic practices, and integrated pest and disease management in cotton. Apart from technical training, farmers were further supported by the distribution of critical inputs, such as. Ullala 60 g + Emamectin Benzoate 100g + Cabrio top 300g + Planifix 100ml, + All19 - 4kg + PN-4kg + Westa boran - 2kg + MAP - 2kg + NSKE 1L + Pseudomonas 1 kg + Imidacloprid 17.8 % SL 250ml, Lambdacyhalothrin 5% EC 500ml, Profenofos 50 % EC 500ml, Carbendazim 50 % WP 1 kg and westaboran. The impact analysis was carried out through a questionnaire to 50 beneficiaries of the Scheduled Castes Sub Plan (SCSP) project, covering cotton yield, cultivated area, and benefits before and after its implementation from 2022-23 to 2023-24. We analysed the changes in yield per acre and the total benefits gained. The implementation of the Scheduled Castes Sub Plan (SCSP) project for 50 farmers in cotton cultivation led to a marginal increase in the average yield per acre from 3.50q in 2022-23 to 6.02q in 2023-24, representing a 1.40 times improvement in yield. Additionally, the cultivated area expanded significantly, from 69.57 acres to 87.82 acres, representing a 1.26-fold increase.

4.22 First one-day training cum input distribution

The training program titled "Cotton Technology Outreach and Interventions for Cotton Productivity Enhancement and Livelihood Improvement" of farmers of selected villages in Perambalur District, Tamil Nadu, was inaugurated under the leadership of Dr A.H. Prakash, Head, CICR, RS, Coimbatore. Dr V.E. Nethaji Mariappan, the Senior Scientist and Head of ICAR-KVK, Perambalur, Jeyaseelan, the JDA of Perambalur district, along with other notable experts, including Dr K. Shankarganesh, Senior Scientist and Principal Investigator of SCSP project, Dr R Raja, Agronomist, Dr K Remeash, Entomologist, and Dr A. Sampathkumar, Pathologist, were also present in the event. The event took place at ICAR-KVK Valigandapuram, Perambalur, on 06.11.2023. Dr R. Raja, an Agronomist, delivered a lecture on better agronomic practices for remunerative cotton production. He explained in detail the importance of summer ploughing, the different types of ploughs available, and how to select the best one to maintain proper soil health. He also emphasised the importance of High-Density Planting Systems (HDPS), Poly mulch, drip irrigation, and micronutrient management. Dr K Remeash, Entomologist, delivered a lecture on monitoring and eco-friendly management strategies for bollworms in cotton and had fruitful discussions with farmers. He emphasised the importance of pheromone traps for managing the bollworm complex in cotton. He guided the farmers in applying biopesticides, including NPV, neem oil, and neem seed extract, at 5%. He stressed the importance of crop rotation, the release of egg parasitoids, and the conservation and augmentation of natural predators and parasitoids for effective control of the cotton pest. Sucking pest complex and their management practices in cotton were delivered by Dr K. Shankarganesh, Entomologist. He covered the sucking pests, their damage symptoms, the identification of their different stages (eggs, nymphs, and adults), and their management strategies. Dr A. Sampathkumar, Pathologist, delivered the lecture about

important and emerging diseases of cotton and their management. In this lecture, he spoke about important and emerging diseases in cotton in recent times, the identification of symptoms, and integrated disease management practices (Cultural practices, biological control, and Chemical control). Tmt. M Punithavathi, SMS, KVK, discussed the importance of integrated nutrient management (INM) practices in cotton. She explained the role of nitrogen, phosphorus, and potassium (NPK) fertilisers in cotton production. She educated the farmers on the available NPK fertilisers in the market and their importance, the proportions of the three plant nutrients, and the time and place of application. Mr Manoj, SMS, KVK delivered a lecture on the maintenance of cotton crop health, especially on the selection of pesticides and the optimum doses for effective management of pests and diseases. He explained the economic threshold level, the economic injury level, and the optimal time and dosage of pesticides to maximise yield, minimise expenditure, and maximise profit for farmers.

4.23 Second one-day training cum input distribution

Dr S. Usharani, Principal Scientist (Entomology), delivered a lecture on Cotton Technology Outreach and the scope of FPOs in cotton farming. She explained that FPOs play a pivotal role in promoting technology adoption, enhancing market access, building resilience, and empowering cotton farmers to improve their livelihoods. Their holistic approach encompasses capacity building, market linkages, risk management, and advocacy, thereby contributing to the sustainable development of the cotton sector. Dr M. Sabesh, Senior Scientist, delivered a lecture on Recent Technologies for Remunerative Cotton Cultivation. These recent technologies for remunerative cotton cultivation offer promising opportunities to increase profitability, reduce risks, and promote sustainable farming practices. By adopting these innovations, cotton farmers can improve their competitiveness in the global market while minimising environmental impacts and safeguarding their livelihoods. Dr K. Shankarganesh, Senior Scientist, delivered a lecture on the symptoms and management of major insect pests in cotton. He explained in detail about the Integrated Pest Management (IPM) strategies, combining cultural, biological, and chemical control methods, which are often recommended for sustainable and effective pest management in cotton. Regular monitoring of pest populations, the use of resistant varieties where available, and the judicious use of pesticides are essential components of IPM programs. Additionally, promoting biodiversity and conserving natural enemies helps maintain ecological balance and reduce reliance on chemical inputs. Dr A Sampathkumar, Senior, delivered a lecture on the symptoms and management of major diseases in cotton. He explained in detail about the effective disease management in cotton.

Often requires an integrated approach that combines resistant varieties, cultural practices, and, if necessary, chemical control methods. Regular scouting and monitoring of fields, along with timely intervention based on disease risk assessments, are crucial for minimising yield losses and preserving crop health. Tmt. M. Punithavathi, SMS Agronomy, delivered a lecture on nutritional disorders and management in cotton. She explained in detail that the proper soil testing, nutrient management planning, and timely corrective measures are essential for preventing and managing nutritional disorders in cotton. Integrated nutrient management approaches, including soil amendments, fertilisation practices, and foliar applications, can help ensure balanced nutrition and optimal crop performance. Additionally, maintaining overall soil health through practices such as crop rotation, organic matter addition, and conservation tillage can improve nutrient availability and uptake efficiency in cotton crops. Mr Manoj, from SMS Entomology, delivered a lecture on Pesticide selection and usage in cotton. He explained in detail how implementing these practices can help cotton growers optimise pesticide selection and use, reduce environmental risks, and promote sustainable pest management in cotton cultivation. Collaboration with agricultural extension services, crop advisors, and industry experts can also provide valuable guidance and support in pesticide decision-making and pest management planning.

Details of the training and the lecture delivered by the scientist

S.no.	Topic	Resource Scientist
1.	Better agronomy for Remunerative Cotton production	Dr R. Raja, Principal Scientist
2.	Monitoring and eco-friendly management strategies for Bollworms in cotton	Dr K. Rameash, Principal Scientist
3.	Cotton technology, Outreach and scope of FPOs in cotton farming	Dr S. Usharani, Principal Scientist
4.	Sucking pest complex and Management in cotton	Dr K. Shankarganesh, Senior Scientist
5.	Symptoms and management of major insect pests in cotton	Dr K. Shankarganesh, Senior Scientist
6.	Important and emerging diseases in cotton and management	Dr A Sampathkumar, Senior Scientist
7.	Symptoms and management of major diseases in cotton	Dr A Sampathkumar, Senior Scientist
8.	Recent Technologies for Remunerative Cotton Cultivation	Dr M. Sabesh, Senior Scientist
9.	INM in Cotton	Tmt.M Punithavathi, SMS, Agronomy
10.	Nutritional disorders and management in cotton	Tmt. M Punithavathi, SMS, Agronomy
11.	Cotton crop health–selection of pesticide and Optimum Dose	Mr. Manoj, SMS, Entomology
12.	Pesticide selection and usage in cotton	Mr. Manoj, SMS, Entomology

Lecture delivers to SC farmers

Second one-day SCSP training cum input distribution on 23.02.2024

5. Training Programmes / Skill Development Activities

The following training programmes were organised under the SCSP programme to improve farmers' skills. Various training programs led to knowledge enhancement, skill development, empowerment and confidence, especially for women farmers, and to the overall sustainability and resilience of agricultural systems and thus of livelihoods. A total of 6543 people benefited from various skill development programs. The training programmes covered various aspects such as crop management, improved cotton production technology for cotton, integrated pest management, pink bollworm management in cotton, use of bio fertilizers, horticulture, soil health management, drone application in agriculture, drudgery- reducing farm implements, repair, and maintenance of equipment's, crop diversification for enhancing income and role of livestock for improving livelihood security.

Sr. No.	Training Programme	Date	Venue	Village Name	No. of SC beneficiaries
1	Integrated Nutrient and Pink Bollworm Management in Cotton	17 December 2019	Thombra Ta. Umred, Dist. Nagpur	Thombra Ta. Umred, Dist. Nagpur	200
2	Recent innovations in Agri-biosciences in strengthening the Indian economy	1st February 2020	Dr Ambedkar College, Deekshabhumi, Nagpur	Yavatmal, Nagpur, Wardha, Bhandara and Chandrapur districts	200
3	Workshop on "Empowering ScheduledCast Unemployed Rural Youth for Developing Agribusiness and Entrepreneurship."	3rd March 2020	Godhani village, Nagpur	Godhani Ta. Umred, Dist. Nagpur	300
4	One day, training cum farmers meet on 'Agri-based Business management	4 February 2021.	Godhani village, Nagpur	Godhani Ta. Umred, Dist. Nagpur	100
5	Poshan Vatika Maha Abhiyan and a one-day workshop on Integrated Pest and Disease Management in Cotton.	17 September 2021.	Dhurkheda, Ta. Umred, Dist. Nagpur	Dhurkheda, Ta. Umred, Dist. Nagpur	200
6	Training cum Demonstration of the Cotton Stalk Shredder in the cotton field to SC farmers.	02 March 2022.	ICAR-Central Institute for Cotton Research, Nagpur.	Khobna, Bodkhipeth Ta. Kuhi & Amboli Ta. Umred, Dist. Nagpur	50
7	Training program on Scientific Goat Farming & Livestock Management for SC beneficiaries.	29 March 2022	Punyashlok Ahilyadevi Maharashtra Mendhiva Sheli Vikas Prakshetra, Bondri, Ta. Ramtek, Dist. Nagpur.	Khapri, Kinhi Khurd, Wakeshwar Ta. Bhiwapur & Welsakhara Ta. Umred Dist. Nagpur	50
8	Stakeholders Interface Farmers Meeting for	7 May 2022	Vasantrao Naik State Agriculture	Welsakhara, Wadegaon Ta.	40

	Pre-Kharif season (Interface Farmers Meeting cum Training for Pre-Kharif season to increase Cotton Production using better cultivation and improved technologies.)		Extension Management Training Institute, Nagpur. (VANAMATI)	Umred, Dist. Nagpur	
9	Training program on 'Improved Cotton Production Technology' on the occasion of "Garib Kalyan Sammelan."	31 May2022	ICAR-Central Institute for Cotton Research, Nagpur.	Welsakhara, Godhani, Dhurkheda, Wadegaon, Thombra, Pipardol, Amboli, Tirkhura, Pauni Ta. Umred, Sillori, Ta. Saoner, Sonapar, Ta. Kalmeshwar, Khobna, Bodkhipeth, Swarkhanda & Amti Ta. Kuhi, Khapri Ta. Bhivapur Dist. Nagpur &Durgada Ta. Deoli Dist. Wardha	482
10	Training program on 'Scientific Soybean Cultivation' to SC farmers.	14 June 22	ICAR- Central Institute for Cotton Research, Nagpur.	Umred & Mauda Dist. Nagpur	57
11	Training on Tur Cultivation	15 June 2022	Welsakhara, Godhani and Dhurkheda Ta. Umred, Dist. Nagpur	Welsakhara, Godhani, and Dhurkheda Ta. Umred, Dist. Nagpur	157
12	Training program on 'Scientific Soybean Cultivation' to SC farmers	17 June 2022	KVK, VNMKV, Aurangabad.	KVK, VNMKV, Aurangabad.	64
13	Training program on Kharif crop (Paddy and Tur) Cultivation to SC farmers.	20 June 2022	Khobna, Bodakhipeth, Sawarkhanda, Amti Ta. Kuhi, Dist. Nagpur	Khobna, Bodkhipeth, Swarkhanda & Amti Ta. Kuhi Dist. Nagpur	113
14	Training on the uses of PUSA Bio-Fertilisers for SC farmers in Nagpur district.	17 August 2022	Welsakhara, Godhani, Pipardol, Amboli, Ta. Umred Dist. Nagpur	Welsakhara, Godhani Pipardol, Amboli, Ta. Umred Dist. Nagpur	170
15	Training on the usage of PUSA Bio-fertilisers for SC farmers of Nagpur district.	23 August 2022	Khobna & Bodakhipeth Ta. Kuhi, Dist. Nagpur	Khobna & Bodakhipeth Ta. Kuhi, Dist. Nagpur	64
16	Training on Integrated Pest Management and	8 September	Dongargaon, Ta. Kuhi, Dist. Nagpur.	Dongargaon, Ta. Kuhi, Dist. Nagpur	26

	Cotton field visit to SC farmers at MGMG village.	2022			
17	Training on 'Integrated Cotton management' on the occasion of "World Cotton Day"	7 October 2022	ICAR - Central Institute for Cotton Research, Nagpur.	KhairiPanjab, Higna Ta. Saoner, Parsodi, Ta. Parshevani, ChikhliMaina, Wadvihara Ta. Katol, & Khadki, Ta. Narkhed, Dist. Nagpur	85
18	Training on "Cotton technology outreach and interventions for improving ELS cotton" for cotton-growing farmers' livelihoods	12 October 2022	ICAR - KVK, Hans Roever Campus, Valikandapuram, Perambalur, Beneficiary	Tharani in Perambalur Dist. Tamil Nadu	50
19	Farmers training on Cotton cultivation cum exposure visit at CICR Cotton fields on the occasion of "PM KISAN SAMMAN SAMMELAN"	17 October 2022	ICAR- Central Institute for Cotton Research, Nagpur.	Wadvihara, Chikhli Maina, Ta. Katol, Khadki, Ta. Narkhed, Khairi, Punjab, Ta. Saoner, Parsodi, Ta. Parshevani Dist. Nagpur	132
20	Farmers Training on PBW management in cotton field and the usage of Pheromone Trap.	2 November 2022	Wadegaon, Pipardol, Ta. Umred, Dist. Nagpur	Wadegaon, Pipardol Ta. Umred, Dist. Nagpur	74
21	Training programme on "Integrated Cotton Cultivation," Exposure visit and Exhibition on the occasion of "Kapas Mela 2022"	24 November 2022	ICAR – Central Institute for Cotton Research, Nagpur.		400
22	Workshop and Training on "Soil Health Management" on the occasion of "World Soil Day 2022"	5 December 2022	ICAR- Central Institute for Cotton Research, Nagpur	Khadki, Ta. Narkhed & Parsodi Ta. Parshevani Dist. Nagpur	45
23	Farmer Science Congress on the occasion of the Indian Science Congress	5 January 2023	Rashtrasant Tukdoji Ma haraj Nagpur University Campus, Nagpur	Durgada Ta. Deoli, Dist. Wardha, Amboli, Welsakhara Ta. Umred, Khobna, Bodkhipeth, Amti Ta. Kuhi, Dist. Nagpur	100
24	Farmers Meet on Agri - Innovations for Sustainable Productivity"	4 March 2023	Dr Ambedkar College, Dekshabhoomi, Nagpur	Nagpur & Wardha District	60
25	Health Camp	24 March 2023	ICAR – CICR, Nagpur		140

26	Cotton farmers workshop, Pre-Kharip Consultation	19 May 2023	ICAR - CICR, Nagpur	Pipardol, Ta.Umred, Mendhepathar, Ta. Katol, Hingna, Ta. Saoner, Amit Ta. Kuhi Dist. Nagpur & Durgada Ta. Deoli, Dist. Wardha	183
27	Cotton farmers workshop, Pre-Kharip Consultation: Technologies & Best Management Practices for Enhancing Cotton Productivity	30 May 2023	ICAR – CICR, Nagpur	Khadki, Ta. Narkhed, Rampuri, Ta. Saoner, Parsodi, Ta. Parseoni, Khobna, Bodkhipeth, Ta. Kuhi, Pauni, Wadegaon, Wadvihara, Ta. Umred, Dist. Nagpur	166
28	"One Day Workshop for Women Farmers" "Training for capacity building and entrepreneurship development of farm women"	2 June 2023	Durgada Ta. Deoli, Dist. Wardha	Durgada Ta. Deoli,Dist. Wardha	60
29	PM – KisanSammanNidhi Programme, Input distribution-cum training on cotton crop	27 July 2023	ICAR – CICR, Nagpur	Khobna, Bodkhipeth, Swarkhanda&Amti Ta. Kuhi Dist. Nagpur	80
30	Training on "Cotton technology outreach and interventions for Cotton productivity Enhancement and Livelihood Improvement of Farmers of Selected Villages in Perambalur District, Tamil Nadu	6 November 2023	ICAR – KVK Valigandapuram, Perambalur, Tamil Nadu		50
31	Kisan Mela	19 December 2023	ICAR – CICR, Nagpur	Gandhinagar, Malkapur&Sharad Ta. Kalamb, Dist. Yavatmal & Mangaon, Salapur Ta. Samudrapur, Dist. Wardha	139
32	Farmers training on "Opportunities and Challenges in Livestock Production"	16 January 2024	Veterinary College, Nagpur	Khadki, Ta. Narkhed, Hingna, Ta. Saoner, Parsodi, Ta. Parseoni, Wadvihara pathar, Ta. Katol, Wadegaon Ta. Umred, Dist. Nagpur	100
33	Farmers training on "Role of Livestock	21 February 2024	ICAR – CICR, Nagpur	Tirkhura, Amboli, Godhani, Dhurkheda,	106

	Production in Sustainable Agriculture"			Welsakhara, Wadegaon, Pipardol Ta. Umred, Mendhepathar, Wadvihara & ChikhaliMaina Ta. Katol Dist. Nagpur, Salapur Ta. Samudrapur, Dist. Wardha	
34	Farmers meet cum Training on 'Integrated Cotton Management' on the occasion of 16th instalment of "PM KISAN SAMMAN NIDHI"	28 February 2024	ICAR – CICR, Nagpur	Hingna, Ta. Saoner, Sawarkhanda Ta. Kuhi Dist. Nagpur, Mangaon, and Salapur Ta. Samudrapur Dist. Wardha	71
35	Livelihood-Enhancing Skill Development Training for Rural Women.	6 March 2024	ICAR – CICR, Nagpur	Khadki Ta. Narkhed, Mendhepathar, Ta. Katol, ParsodiTa.Parseoni, Sawarkhanda Ta. Kuhi, Wadegaon Ta. Umred, Wadvihara Ta. Katol Dist. Nagpur, Durgada Ta. Deoli Dist. Wardha, Gandhinagar, Sharad & Malkapur Ta. Kalamb Dist. Yavatmal	60
36	Cotton farmers Training cum workshop, on "HDPS & Closer Spacing cotton cultivation Technologies"	14 June 2024	Malkapur & Gandhinag ar Ta, Kalamb, Dist. Yavatmal.	Malkapur & Gandhinagr Ta. Kalamb Dist. Yavatmal	56
37	Cotton farmers Training on "Integrated Cotton Management"	12July 2024	ICAR – CICR, Nagpur	Borgaon Ta. Kampthi, Pipardol, Wadegaon Ta. Umred Dist. Nagpur, Morshi Khurd Ta. Warud, Pohara Purna Ta. Bhatkuli Dist. Amravati, Chondi, Bahadarpur, and Savlapur Ta. Arvi Dist. Wardha	139
38	Training & Entrepreneurship development for the Charkha unit	8 August to 17 August 2024	Durgada Ta. Deoli, Dist. Wardha	Durgada Ta. Deoli, Dist. Wardha	10
39	Leveraging improved cotton technologies and	8 August 2024	KVK, Perambalur, Tamil Nadu		50

	sustainable interventions for marginal SC Livelihoods/SC farmers				
40	"Training on PB Rope"	12 August 20 24	Naigaon Ta. Daryapur, Dist. Amravati	Naigaon Ta. Daryapur, Dist. Amravati	25
41	"Training on PB Rope"	13 August 2024	Bhajipani Ta. Katol, Dist. Nagpur	Bhajipani Ta. Katol, Dist. Nagpur	14
42	"Training on PB Rope"	13 August 2024	Malkapur Ta. Kalamb Dist. Yavatmal	Malkapur, Ta. Kalamb, Dist. Yavatmal	17
43	Farmers training on Cotton HDPS field Demonstration cum input distribution event for SC farmers engaged in cotton cultivation	13 September 2024	Panchayat Union Office in Valikandapuram, Perambalur district		50
44	Field Exposure Visit	20th to 22nd September 2024	PDKV, Akola	PDKV, Akola	312
45	Visit of Shri Giriraj Singh Ji, Hon'ble Union Minister of Textiles	25 September 2024	ICAR – CICR, Nagpur	Durgada Ta. Deoli, Dist. Wardha, Sharad Ta. Kalamb, Dist. Yavatmal, Hingna Ta. Saoner & Mendhepathar Jangli Ta. Katol Dist. Nagpur	5
46	Cotton growing farmers training cum Field Visit to the Cotton growing Area	16 October 2024	Malkapur & Gandhinag ar Ta. Kalamb, Dist. Yavatmala	Malkapur & Gandhina gar Ta. Kalamb, Dist. Yavatmala	50
47	Cotton HDPS field Demonstration cum input distribution event for SC farmers engaged in cotton cultivation	24 & 25 October 2024	Kudikadu, Neykuppai, and Keezhaperambalu, Perambalur district		50
48	Farmers Training cum Demonstration of Cotton Stalk Shredder	17 December 2024	ICAR- CICR, Nagpur	Sharad & Malkapur Ta. Kalamb Dist. Yavatmal	30
49	Water ATM Visit	19 December 2024	Khadki Ta. Narkhed & Chikhali Maina Ta. Katol Dist. Nagpur	Khadki Ta. Narkhed & Chikhali Maina Ta. Katol Dist. Nagpur	92
50	Krishi Mela cum Input Distribution Programme	20 December 2024	ICAR - CICR, Nagpur	Chondi Bahadarpur & Savlapur Ta. Arvi Dist. Nagpur	44
51	Farmers Training cum Field Day Programme	10 January 2025	Pohara Purna, Ta. Bhatkuli, Dist. Amravati	Pohara Purna, Ta. Bhatkuli, Dist. Amravati	100
52	Farmers Training cum	11 January 2025	Naigaon, Ta. Daryapur Dist.	Naigaon, Ta. Daryapur	50

	Field Day Programme		Amravati	Dist. Amravati	
53	Farmer workshop cum Training	29 January 2025	Malkapur, Ta.Kalamb, Dist. Yavatma	Malkapur, Ta.Kalamb, Dist. Yavatmal	100
54	One day visit to Science Exhibition Show at Raman Science Centre, Nagpur	17 February 2025	Raman Science Centre & Planetarium, Nagpur	Amti, Ta. Kuhi, Chikhali Maina, Mendepathar, Wadvihara, Ta. Katol, Higna Ta. Saoner, Parsodi, Ta. Parseoni, Khadki, Ta. Narkhed, Dist Nagpur & Savlapur, Ta. Arvi, Dist. Wardha	100
55	Scientific Goat Farming	11 April 2025	Punyashlok Ahilyadevi Mendhi Va Sheli Vikas Prakshetra, Pohara (Bandi), Taluka, Dist. Amravati	Gandhinagar, Sharad Ta. Kalamb Dist. Yavatmal & Pohara Purna Ta. Bhatkuli Dist. Amravati	76
56	Vikasit Krushi Sanklp Abhiyan Antargat Kisan Samelan	18 May 2025	Kavivarya Suresh Bhat Auditorium, Nagpur	Amti, Sawarkhanda, Khobna, Bodkipeth Ta. Kuhi, Tirkhura, Pipardol Ta. Umred, Dist. Nagpur	180
57	Farmer's Workshop cum Input distribution Pre-Kharif consultation: Technologies & BMPs for Enhancing Cotton Productivity	23 May 2025	ICAR – CICR, Nagpur	Chondi Bahadarpur & Sawalapur, Ta. Arvi, Dist. Wardha. Katsur, Ta. Teosa, Pohara Purna Ta. Bhatkuli Dist Amravati & Govwarpeth, Ta. Nagbhir, Dist. Chandarpur	128

Training programme organized for SC farmers

6. Special Programme

6.1 Distribution of Food Kits during the COVID-19 Pandemic

The COVID-19 (coronavirus) pandemic and the subsequent lockdown from 22nd March 2020 onwards severely affected the livelihoods of labourers, daily workers, migrant labourers, and low-income families. ICAR-CICR Nagpur distributed food kits under the Scheduled Castes Sub Plan (SCSP) scheme in Khapari, Khursapar, and nearby villages of Nagpur district in March-April 2020. Dr. V. N. Waghmare, Director, ICAR-CICR, Nagpur, and Dr. S. M. Wasnik, Nodal Officer (SCSP), personally attended the program and distributed Food kits to beneficiaries during the pandemic, maintaining social distance. Food kits were distributed to 120 Scheduled Castes beneficiaries in the initial days of lockdown. Essential items, including pulses, sugar, flour, oil, etc., were included in the food kits.

Ration kit Distribution to the beneficiaries under the SCSP scheme

6.2 Poshan Vatika Maha Abhiyan

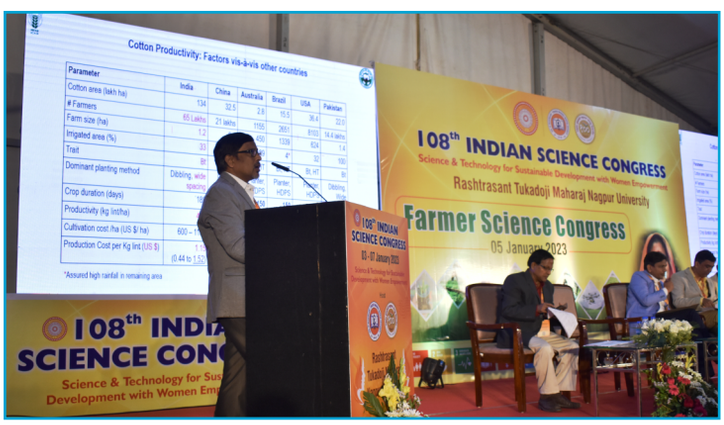

ICAR-CICR, Nagpur, conducted “Poshan Vatika Maha Abhiyan” & one day workshop on Integrated Pest and Disease Management in Cotton under the Scheduled Castes Sub Plan (SCSP) at Dhurkheda, Ta. Umred, Dist. Nagpur on dated 17 September, 2021. Scientists from various disciplines of CICR Nagpur and officials from the State Agriculture department participated in the workshop. The 'Poshan Vatika Maha Abhiyan' was inaugurated by the Minister of Agriculture, Govt. of India, Hon. Narendra Singh Tomar, and was broadcast to farmers through Live Webcasting. Dr. S. M. Wasnik, Nodal Officer SCSP, apprised the farmers about the technologies developed by the institute, as well as about the CICR- Cotton App and e-Voice Message system available for information and urged the farmers to register their phone numbers to receive e-voice messages regarding advisories for cotton cultivation. Dr. S. P. Gawande, Scientist in Plant Pathology, guided the farmers on the importance of coarse grains/millets in their diet and informed them of their benefits. Later in the technical session, Dr. Jayant Meshram Pr. Scientist, Dr. Sunil Mahajan, Pr. Scientists Dr. Deepak Nagrale, Dr. Nilkanth Hiremani, Dr. Vivek Shaha, and Dr. Saravanan briefed the farmers on various subjects related to Integrated Pest and Disease Management in Cotton. More than 200 beneficiaries from Dhurkheda village participated in this program.

Dr S. M. Wasnik, addressing the farmers at Dhurkheda, Ta. Umred, Dist. Nagpur

6.3 Indian Science Congress focus on Women's Empowerment

The Indian Science Congress (ISC), being held from 3rd to 7th January 2022 at RTMNU, Nagpur, would focus on scientific development in India, keeping in view women's empowerment and the changing socio-political scenario. Prime Minister of India, Shri. Narendra Modi inaugurated the 108th Indian Science Congress on 3rd January 2023. Eminent scientists, industry leaders, technocrats, policy makers and academicians would grace the occasion. The Theme of the 108th Indian Science Congress is "SCIENCE AND TECHNOLOGY for SUSTAINABLE DEVELOPMENT with WOMEN EMPOWERMENT". The Congress aims to address all the key issues that are obstacles to the growth of women in the fields of Science & Technology. 100 SC farmers from Nagpur and Wardha districts participated in this programme under the SCSP Scheme. A key highlight of the event is the Pride of India (PoI)-Mega. Science Exhibition that has emerged as a unique platform for organisations from both public and private sectors to showcase their achievements in science and technology

Dr Y. G. Prasad, Former Director ICAR-CICR, Addressing the 108th Indian Science Congress at RTMNU Campus, Nagpur

SC Farmers participated on the occasion of 108th Indian Science Congress at RTMNU Campus, Nagpur

6.4 Garib Kalyan Sammelan

ICAR- Central Institute for Cotton Research, Nagpur, conducted a farmers – Scientists interaction on the occasion of the Hon'ble Prime Minister's address & release of funds under PM Kisan on 31st May 2022. A total of 482 SC farmers from 17 villages of six Talukas of Nagpur and Wardha district from the SC Sub Plan attended the programme. The Sammelan conceptualises the elected public representatives across the country directly interacting with the public to get feedback about the various welfare programmes being run by the Government. The Prime Minister also released the 11th Instalment of financial benefits under the Pradhan Mantri Kisan Samman Nidhi (PM-KISAN) Scheme. This will enable the transfer of an amount of around Rs. 21,000 crores to more than 10 crores beneficiary farmer families. On this occasion, input was also distributed to SC farmers.

“Garib Kalyan Sammelan” at ICAR-CICR, Nagpur

6.5 World Cotton Day

On the occasion of "World Cotton Day" on 07th October 2022, ICAR-Central Institute for Cotton Research (ICAR-CICR), Nagpur, organised "Training on Integrated Cotton Management cum Input Distribution Program" under the Scheduled Castes Sub Plan (SCSP). World Cotton Day is celebrated globally to recognize the importance of cotton as a vital crop for millions of farmers, textile industries, and economies worldwide. It aims to promote sustainable cotton production, raise awareness about the challenges faced by cotton growers, and encourage innovations that benefit both farmers and the environment.

In line with this global initiative, the program aimed to educate and empower Scheduled Castes (SC) farmers by imparting knowledge on sustainable and integrated cotton cultivation practices. A total of 60 SC farmers from six villages across Narkhed, Katol, Saoner, and Parseoni talukas of Nagpur district participated in the training. During the sessions, scientists and experts from ICAR-CICR provided valuable insights into integrated nutrient management, pest and disease control, and the adoption of eco-friendly farming inputs to enhance cotton productivity and promote sustainability. This knowledge transfer is crucial for small and marginal farmers, especially from marginalised communities, to improve their crop yields and income while maintaining ecological balance.

As part of the initiative, critical input kits were distributed to all SC farmer beneficiaries. Each kit contained essential agricultural inputs such as bio-fertilisers (Trichoderma powder, Liquid consortia NPK), micronutrients (Zinc and Boron), liquid fertilisers (Nano Urea), and bio-pesticides (Neem oil). Additionally, the kits included key chemical plant protection products, such as insecticides (Flonicamid, Chlorantraniliprole) and fungicides (Propiconazole, Metiram + Pyraclostrobin), to ensure comprehensive crop protection.

This integrated approach not only provided practical knowledge but also ensured timely access to vital inputs, thereby contributing significantly to the socio-economic upliftment of SC farmers. By promoting sustainable cotton farming practices, the program supports environmental conservation and strengthens the cotton value chain in the Nagpur region, aligning with World Cotton Day's broader goals.

World Cotton Day at ICAR-CICR, Nagpur

6.6 PM Kisan Samman Sammelan

On the occasion of the PM Kisan Samman Sammelan, a Training cum Input Distribution Program was organised by the ICAR-Central Institute for Cotton Research (ICAR-CICR), Nagpur, under the Scheduled Castes Sub Plan (SCSP) scheme on 17 October 2022 at ICAR-CICR, Nagpur. The program aimed to empower Scheduled Castes (SC) farmers by providing both knowledge and essential agricultural inputs to improve crop productivity and enhance livelihoods. A total of 132 SC farmers from five villages across the Narkhed, Katol, Saoner, and Parseoni talukas of Nagpur district actively participated in the training, which focused on best practices for cultivating pulses and cereals, soil health management, and sustainable farming techniques to increase yield and reduce input costs. To complement the training, Critical inputs such as Gram seed, Wheat seed, Vermi compost bed to promote organic nutrient recycling and soil fertility, and Tarpaulin to aid vermicomposting and other farm activities were distributed.

This integrated approach supports sustainable agriculture, encourages organic farming, and helps SC farmers build resilience against climate variability and market fluctuations. By equipping farmers with the right knowledge and resources, the program contributes to the socio-economic uplift of marginalised communities. It aligns with the broader goals of the initiative to enhance farmers' welfare.

Hon'ble Prime Minister, Govt. of India addressing farmers through the video conferencing on the occasion of "PM kisan Samman Sammelan" Nagpur.

Input distribution and field visit for SC farmers on the occasion of "PM kisan Samman Sammelan" Nagpur

6.7 Shivar Pheri

Shivar Pheri was organized for SC farmers at Dr Panjabrao Deshmukh Krishi Vidyapeeth (Dr. PDKV), Akola, Maharashtra from 20th to 22nd September, 2024. A total of 312 SC farmers participated from SCSP villages of Mendepathar, Chikal Maira Khadki, Wadvihara, Husenpur, Palwadi, Kafsur, Gandhinagar, Durgarda, and Sharad in Nagpur, Amravati, Yavatmal, and Wardha districts, respectively. Three days of 'Shivar Pheri' included live demonstrations of advanced crop production techniques (viz. cereals, pulses, oilseeds, cash crops, forage, vegetables horticultural crops etc.), to provide a platform for farmers, researchers, policymakers and industry stakeholders to exchange knowledge, learn about the cutting–edge agricultural practices and explore solutions for enhancing the crop production and productivity while ensuring the sustainable and environmental friendly practices. Private-sector agri-input companies showcased their live demonstrations at the event. Live demonstrations of the kharif breeder seed production programme of the University was also organized.

Exposure Visit for SC farmers on the occasion of "Shivar Pheri" at PDKV, Akola

6.8 Visits to Science Exhibition Show at Raman Science Centre

ICAR-Central Institute for Cotton Research (CICR), Nagpur, organized a One Day Science Exhibition Visit to the Raman Science Centre and Planetarium, Nagpur, under the Scheduled Castes s Sub Plan (SCSP). A total of 92 Scheduled Castes s students from 8 villages of Nagpur and Wardha districts enthusiastically participated in this educational programme.

The visit aimed to promote scientific curiosity, awareness, and learning among rural SC students by exposing them to interactive science exhibits, space science shows, and innovative scientific models. The students actively engaged with various exhibits and demonstrations at the centre, gaining hands-on experience and insights into scientific principles and space technology. The Planetarium show was particularly well received, offering the students a rare opportunity to explore astronomy and space exploration in an immersive format. This initiative reflects ICAR-CICR's commitment to inclusive education and its continuous efforts to bring science closer to marginalized communities.

Visit to the Raman Science Centre

7. Demonstrations

7.1 Demonstration of improved varieties of cottonseed

ICAR-CICR Nagpur has conducted cotton demonstrations at 108 farmers' fields in the month of June, 2020, in the MGMG-adopted villages under the SCSP Scheme. The villages that benefited are Samudrapur, Sarandi, Parseoni, Hingna, Nandura, Kalmeshwar, Navegaon and Dongargaon. Cotton seed was distributed to 8 different clusters of MGMG. Each bag contains 2 Kg of seed for 1 acre demonstration. Several extension activities like field visit of farmer, group discussions and scientist-farmer meet were arranged for effective implementation Technology Transfer. The Seeds of ICAR-CICR released Bt varieties, such as ICAR-CICR Suraj Bt and ICAR-CICR Rajat Bt, were supplied to farmers. They were given training on quality seed production such as selecting the seed source, maintaining isolation, and rouging. The farmers were informed about the Bt varieties and their reuse as seed for next sowing season.

Distribution of cotton seed to SC farmers

7.2 Demonstration of drone application

A Krishi Mela was organised by the ICAR-Central Institute for Cotton Research (ICAR-CICR), Nagpur, on 20th December 2024 under the Scheduled Castes Sub Plan (SCSP). The event witnessed active participation from 44 Scheduled Castes (SC) farmers from the villages of Chondi Bahadarpur and Sawalapur in Taluka Arvi, Wardha district. The primary objective of the programme was to promote awareness and encourage the adoption of modern agricultural technologies among SC farmers. On this occasion, the institute arranged a drone-spraying demonstration, led by Dr Shivaji Thube, who explained the significance and practical utility of drone technology in agriculture. Drone spraying enables

precise and uniform application of pesticides, herbicides, and fertilizers across large areas, significantly reducing chemical wastage and environmental contamination. It also minimizes labor requirements and farmer exposure to hazardous agrochemicals, making the process both safer and more efficient. Furthermore, drones can function effectively in difficult terrain and under varying weather conditions, improving the timing and flexibility of crop protection interventions. During the demonstration, farmers observed the drone in action and participated in an interactive session where their queries and concerns were addressed. The programme aimed to empower marginalized farming communities by providing them with exposure to innovative technologies that can enhance productivity, reduce costs, and promote sustainable agricultural practices.

Demonstration of drone application to SC farmers

7.3 Demonstration of Cotton Stalk Shredder

Live demonstration of Cotton Stalk Shredder was organized for SC farmers in cotton field of CICR, Nagpur under the Scheduled Castes Sub Plan (SCSP) on 17th December 2024. A total 30 SC farmers from Malakapur and Sharad villages attended the programme. The objective of the programme was to promote sustainable agricultural practices and effective cotton residue management through farm mechanization. A total of 30 Scheduled Castes farmers

from Malkapur and Sherad villages of Taluka Kalamb, District Yavatmal, participated in the training. The programme featured comprehensive sessions on the use, operation, and maintenance of cotton stalk shredders, followed by a live field demonstration at the CICR cotton fields to provide practical exposure. At the conclusion of the programme, cotton stalk shredders were distributed to both participating farmers' groups to facilitate the adoption of eco-friendly residue management practices in their respective villages. The two beneficiary farmer groups were: Baliraja Shetkari Sendriya Dhanya Utpadak Gat, Shard, Taluka Kalamb, and Krushi Utkarsh Shetkari Sendriya Kadadhanya Utpadak Gat, Malkapur, Taluka Kalamb, District Yavatmal. This initiative underscores ICAR-CICR's ongoing commitment to empowering Scheduled Castes farmers by providing access to modern agricultural tools, technical knowledge, and sustainable farming solutions. Cotton shredder is ideal for shredding cotton stalks to clear the field for next crop cultivation. After harvesting of cotton, cotton shredder is used to cut the whole cotton root stalk. It can covert cotton stalks into very small pieces and helps to convert it into organic fertilizer.

Demonstration of cotton stalk shredder to SC farmers

7.4 Demonstration on CREMIT PBW for Mating Disruption of Pink Bollworm

ICAR-CICR Field Demonstration on Demonstration-cum-Distribution Programme on CREMIT PBW, a pheromone-based formulation for the management of Pink Bollworm (PBW), was organised by the ICAR-Central Institute for Cotton Research (ICAR-CICR), Nagpur, under the Scheduled Castes s Sub Plan (SCSP) during the 2024–25 Kharif season. The programme aimed to build the capacity of 56 Scheduled Castes farmers from the villages of Bhajipani (Taluka Katol, District Nagpur), Malkapur (Taluka Kalamb, District Yavatmal), and Naigaon (Taluka Daryapur, District Amravati) in adopting eco-friendly and sustainable PBW management strategies.

CREMIT PBW is a controlled-release pheromone formulation designed for mating disruption of Pink Bollworm. It works by releasing synthetic sex pheromones that confuse male moths and prevent them from locating females, thereby disrupting the mating cycle and reducing the pest population over time. This technology is a non-toxic, environmentally safe alternative to chemical insecticides, and is best suited for use in conjunction with other Integrated Pest Management (IPM) practices. During the programme, Dr J. H. Meshram, Principal Scientist and Nodal Officer (SCSP), along with Dr Vishlesh Nagrare, Principal Scientist (Agricultural Entomology), emphasised the importance of adopting such pheromone-based tools like CREMIT PBW, which are critical for managing insecticide-resistant PBW populations. These tools not only minimize chemical residues in the environment but also enhance the

sustainability of cotton cultivation in pest-affected regions. The event facilitated hands-on demonstrations and interactions between farmers and scientists, enabling better understanding and practical knowledge of PBW management. The use of CREMIT PBW is expected to significantly improve pest control, enhance cotton productivity, and support sustainable agricultural development among Scheduled Castes farming communities in the Vidarbha region.

अग्रोवन

दोन शेळ्यांच्या बळावर बसविली आर्थिक घडी

कोरडवाहू शेतीला गोपालनाचा जोडधंदा; दोन लाखांच्या बोकडांची विक्री

पॉझिटिव्ह स्टोरी

विनोद इंगोले : ॲग्रोवन वृत्तसेवा

ज्ञानेश्वर मांडवकर यांच्याकडील शेळ्या.

ज्ञानेश्वर (डावीकडून), मुलगा आदेश, पत्नी रिता, मुलगी पुतिका व ऐश्वर्या.

नागपूर : केंद्रीय कापूस संशोधन संस्थेअंतर्गत गोधणी येथील ज्ञानेश्वर मांडवकर या शेतकऱ्याला १०० टक्के अनुदानावर दोन शेळ्यांचा पुरवठा करण्यात आला. अवघ्या पाच वर्षांत बोकड विक्रीतून तब्बल दोन लाख रुपयांचे उत्पन्न मिळविण्यात ते यशस्वी झाले आहे.

उमरेड तालुक्यातील गोधणी येथील ज्ञानेश्वर मांडवकर यांच्या कुटुंबात पत्नी रिता, मुलगा आदेश, मुलगी पुतिका व ऐश्वर्या यांचा समावेश आहे. यातील मोठी मुलगी ऐश्वर्या हिचे लग्न झाले आहे. तर मुलगा शिक्षणानंतर पोलिस भरतीसाठी प्रयत्नशील आहे. या कुटुंबीयांकडे जेमतेम साडेचार एकर जमीन आहे. यामध्ये कपाशी, सोयाबीन याची लागवड केली जाते. या कोरडवाहू पीकपद्धतीतून मिळणाऱ्या उत्पादनावर कुटुंबाचा गाडा हाकला जात होता. परंतु आर्थिक अडचणीच्या वेळी असल्याने जोडधंदा म्हणून तीन गाई खरेदी करण्यात आल्या. त्यापासून सरासरी ३६ लिटर दूध मिळते. या दुधाची विक्री उमरेड येथील व्यावसायिकाला ३५ ते ४० रुपये लिटरप्रमाणे होते. यातूनही कौटुंबिक गरजांसाठी लागणाऱ्या पैशाची सोय होत नव्हती. अशातच २०२०-२१ मध्ये केंद्रीय कापूस संशोधन संस्थेअंतर्गत डेव्हलपमेंट ॲक्शन प्लॅन फोर शेड्युल कास्ट या योजनेतून त्यांना दोन गावरान शेळ्यांचा पुरवठा करण्यात आला. त्यानंतर या शेळ्यांपासून उत्पादनाच्या बोकड मिळत गेले. भांडलवानी या बोकडांची विक्री गावातून होत होती. एक ते दीड वर्षाच्या या बोकडाला १३,५०० ते १५,००० रुपयांचा दर मिळतो. यातून आजवर सुमारे दोन लाख रुपयांचे उत्पन्न मिळाल्याचे ते सांगतात. इतकेच नाही तर त्यांच्याकडील शेळ्यांची संख्या आजमितीस ४० वर गेली आहे.

विशेष म्हणजे शेतीपूरक दुग्ध व्यवसायाकरिता म्हणून पहिली गाय देखील खर्ड निवास फाउंडेशनकडून ज्ञानेश्वर यांना मिळाली. या गाईपासून पुढे तीन वासरे मिळाली. त्यापैकी विक्री करून त्यातूनही पैसा मिळाला. आता सध्या तीन गाईंचे संगोपन ते करतात.

"सीआयसीआरचे संचालक डॉ. विजय वाघमारे व जयंत मेश्राम यांच्या मार्गदर्शनात डेव्हलपमेंट ॲक्शन प्लॅन फॉर शेड्यूल कास्ट या योजनेची प्रभावी अंमलबजावणी होत आहे. योजनेअंतर्गत मिळालेल्या दोन शेळ्यांचे संगोपनातून आर्थिक समृद्धीचा टप्पा गाठता आला आहे.

शेतकऱ्यांना मिळाले फवारणी सुरक्षा संच

केंद्रीय कापूस संशोधन संस्थेचा उपक्रम

◆ उमरेड, १८ फेब्रुवारी

शेतीला आधुनिकतेची जोड दिली तरच ती लाभात येऊ शकते. हाच मूलमंत्र जपत भारतीय कृषी अनुसंधान परिषद, केंद्रीय कापूस संशोधन संस्था नागपूर यांच्या वतीने अनुसूचित जाती उपयोजना सुरू करण्यात आली आहे. त्यानुसार उमरेड तालुक्यातील वेलसाखरा येथे संबंधित लाभार्थ्यांना कपाशी वेचणीसाठी तयार करण्यात आलेल्या कापडी पिशव्या व फवारणी सुरक्षा संचाचे वितरण करण्यात आले. प्रमुख शास्त्रज्ञ डॉ. सिद्धार्थ वासनिक, डॉ. शैलेश गावंडे यांच्या हस्ते या फवारणी सुरक्षा संचाचे वितरण लाभार्थी शेतकऱ्यांना करण्यात आले.

प्रमुख शास्त्रज्ञ डॉ. सिद्धार्थ वासनिक आणि डॉ. शैलेश गावंडे शेतकऱ्यांना फवारणी सुरक्षा संच प्रदान करताना

ग्रामीण भागात राहणाऱ्या शेतकऱ्यांना जोडधंदा करायला हवा. हीच भावना लक्षात घेता विज्ञान व तंत्रज्ञानाच्या माध्यमातून कौशल्य विकास कार्यक्रम राबविला जात आहे. कृषी आधारित नवीन रोजगार निर्मिती संभावना, शेतीपूरक जोडधंदा हा या प्रकल्पाचा प्रमुख उद्देश असल्याचेही डॉ. सिद्धार्थ वासनिक यांनी स्पष्ट केले. यावेळी वेलसाखरा गावात ५० आणि ठोंबरा येथे ४० लाभार्थ्यांना प्रत्येकी दोन कापूस वेचणी पिशव्या, १ फवारणी सुरक्षा संच मोफत वितरित करण्यात आले. या कार्यक्रमात अक्षय कांबळे, विजय गायकवाड, अश्विन मेश्राम, छाया शेरकी, शिंदे, कल्पना खोब्रागडे, जयश्री खोब्रागडे उपस्थित होते.

जेव्हा केव्हा एखादा शेतकरी जोडधंदा करतो तेव्हा त्याची शेती नफ्यात जाते. त्यामुळे त्याच्या कुटुंबात आनंदाचे वातावरण राहते.

शेती नफ्यात आणण्यासाठी जोडधंदा कराच

डॉ. सुनील रोकडे यांचे आवाहन

वियाणे वितरण कार्यक्रमात सहभागी डॉ. वाय. जी. प्रसाद, डॉ. सुनील रोकडे, डॉ. शिवाजी सरोदे आणि शेतकरी लाभार्थी

◆ नागपूर, २१ जून

आज महागाई वाढली आहे. या स्थितीत केवळ एकाने पैसा कमावून भागत नाही. अशावेळी पती आणि पत्नी दोघेही नोकरी करून संसाराला हातभार लावतात. तिथे नक्कीच त्यांची आर्थिक भरभराट होते. मग तोच फॉर्म्युला शेतकऱ्यांनीही शेती करताना अमलात आणावा. त्यांनी शेती नफ्यात आणण्यासाठी सोबत जोडधंदा करावाच, असे आवाहन कृषी विज्ञान केंद्राचे प्रमुख शास्त्रज्ञ डॉ. सुनील रोकडे यांनी केले.

भारतीय कृषी अनुसंधान परिषद, केंद्रीय कापूस संशोधन संस्था व कृषी विज्ञान केंद्र येथे अनुसूचित जाती उपयोजना अंतर्गत प्रशिक्षण व निविष्ठा वितरण कार्यक्रम पार पडला. यावेळी डॉ. सुनील रोकडे बोलत होते. कार्यक्रमात संचालक डॉ. वाय.जी.प्रसाद, डॉ. शिवाजी सरोदे, डॉ. नंदिनी गोमटे, डॉ. जयंत मेश्राम, डॉ. सुभाष पाटील, डॉ. बाबासाहेब फंड, डॉ. उल्हास गळकाटे, डॉ. शैलेश गावंडे, डॉ. हिरेमनी उपस्थित होते.

योजना समजून घ्या : डॉ. प्रसाद

भारत सरकारने अनुसूचित जातीसाठी अनेक चांगल्या योजना आणल्या आहेत. आम्ही तर त्या योजना राबविणाऱ्या संस्थेत कार्यरत आहोत. तेव्हा शेतकऱ्यांनी अशा योजना समजून त्याचे लाभ घेत आयुष्यात प्रगती करावी असे आवाहन केंद्रीय कापूस संशोधन केंद्राचे संचालक डॉ. वाय. जी. प्रसाद यांनी केले. आज आपल्याला मिळालेले बियाणे पूर्णतः तपासून दिले आहेत. याची उगवण क्षमता चांगली आहे. तेव्हा याची लागवड करून आपली आर्थिक उन्नती साधा असे आवाहन त्यांनी केले.

शेती तोट्यात आहे, अशीच जोडधंदा शेतीपूरक असेल तर ओरड शेतकरी करतात. पण शेती नक्कीच त्याचे लाभ अधिक नफ्यात यावी याकरिता विशेष प्रयत्न करण्याचे टाळतात. आता सर्वच मिळाल्यावर मागे का म्हणून राहायचे तज्ज्ञांनी शेतीसोबत जोडधंदा असाही सवाल डॉ. सुनील रोकडे करण्यावर भर दिला आहे. तो यांनी उपस्थित केला.

कार्यक्रमात डॉ. शिवाजी सरोदे यांनी सोयाबीन व तूर हे बियाणे नेमके कसे हाताळायचे याची सहज सुलभ पद्धतीने माहिती दिली. बियाणांची उगवणक्षमता कायम ठेवत आपल्याता त्यांना हाताळायचे असते. ते नाजूक असतात. अशावेळी शेतकऱ्यांनी त्यांना तळ हाताच्या फोडाप्रमाणे जपत त्यांची लागवड करावी. जेणेकरून त्यांना त्याचे भविष्यात चांगले लाभ होतील असेही ते म्हणाले. कार्यक्रमाच्या यशस्वीतेसाठी अक्षय कांबळे, विजय गायकवाड, श्रीधर एलुका, अश्विन मेश्राम, जयश्री खोब्रागडे यांनी परिश्रम घेतले.

ICAR-CICR organises training programme on skill development for rural women

■ Staff Reporter

A SPECIALISED training programme was organised dedicated to the empowerment and skill development of women. In an effort to empower rural women, particularly those from scheduled castes, a comprehensive training programme was conducted as part of the Development Action Plan for Scheduled Caste (DAPSC).

The initiative aimed to equip women with essential skills to enhance their livelihood opportunities. Under the auspices of ICAR-CICR, Nagpur, the programme saw the participation of esteemed guests and dignitaries. Dr Vidya Mankar, Principal, RAMETI, was the chief guest, alongside Pravin Wankhede, CEO of Universe Exports, and Sangita Chauhan, a prominent women's social activist.

The training session, attended by 60 women from 10 villages across Nagpur, Wardha, and Yavatmal Districts, focused on imparting practical skills crucial for economic empowerment.

Highlighting the importance of self-reliance, Dr Y G Prasad, Director, ICAR-CICR, emphasised the significance of empowering women through skill development initiatives. As part of the programme, 60 sewing machines were distributed to scheduled caste women, furthering their capacity for livelihood enhancement.

Dr Prasad, in his role as the Chairperson, underscored the programmme's commitment to fostering entrepreneurship and economic development among marginalised communities. Dr Vidya Mankar highlighted the Pokhra Project, aimed at bolstering the economic strength of rural Self-Help Groups (SHGs) in Nagpur district through the establishment of cotton processing units. The event featured insightful sessions, including a talk by Pravin Wankhede, who shared valuable insights on entrepreneurship development tailored for women.

Dr Jayant Meshram, the Nodal Officer, DAPSC, provided an overview of ongoing projects aimed at uplifting rural communities. Sangita Chauhan elaborated on financial support opportunities available from organisations such as ATMA, Umed, and Mahila Aarthik Vikas Mahamandal, encouraging women to pursue entrepreneurship at the grassroots level. Dr Vinita Gotmare, Principal Scientist, specialising in Genetics, shed light on the production and utility of new colour cotton varieties like Vaidehi in the textile industry.

The programme was hosted by Dr Shailesh Gawande, Senior Scientist, and concluded with a vote of thanks from Dr Nilkanth Hiremani. The dedication of the entire DAPSC staff, including Akshay Kamble, Vijay Gaikwad, and Ashwin Meshram, ensured the success of this impactful initiative.

Dr Y G Prasad, Director, CICR, distributed sewing machines to 60 women from 10 villages across Nagpur, Wardha, and Yavatmal Districts.

NEWS IN BRIEF

ICAR-CICR and KVK Nagpur hold seed distribution programme

Members of ICAR-CICR and Krishi Vigyan Kendra, Nagpur along the farmers.

ICAR-CICR and Krishi Vigyan Kendra, Nagpur organised a seed distribution programme for FLDs on 57 acres of farmers' fields under the Scheduled Caste Sub Plan (SCSP) in five villages of Nagpur district on June 14.

A total of 57 SC farmers selected as beneficiaries for FLDs were provided seeds of the soybean (var. JS 20-69) and tur (PKV-Tara) 30 kg and 2 kg per farmer respectively. The farmers were also sensitized about the improved package of practices to be followed for growing the soybean and tur crops.

Dr SV Sarode, former director of research, Dr PDKV, Akola was the chief guest on the occasion. Dr YG Prasad, director, ICAR-CICR, Nagpur chaired the programme. Dr Nandini Gokte-Narkhedkar, I/C head division of crop protection, Dr SN Rokade, head, KVK, Dr JH Meshram, nodal officer SCSP shared the dais with dignitaries.

सरकारी योजना समजून आर्थिक उन्नती करा

डॉ. सिद्धार्थ वासनिक यांचे आवाहन

♦ उमरेड, ६ फेब्रुवारी

भारत सरकारच्या वतीने अनेक लोकोपयोगी योजना राबविल्या जात आहेत. त्या योजना समजून घेत आर्थिक उन्नती करा असे आवाहन केंद्रीय कापूस संशोधन संस्थेचे प्रमुख शास्त्रज्ञ डॉ. सिद्धार्थ वासनिक यांनी केले.

भारतीय कृषी अनुसंधान परिषद मार्फत अनुसूचित जाती उपयोजना कौशल्य विकास कार्यक्रमाच्या अंतर्गत उमरेड तालुक्यातील गोधनी येथे व्यवसाय मार्गदर्शन व निविष्ठांच्या वितरण सोहळ्यात ते बोलत होते. याप्रसंगी संचालक डॉ. वाय. जी. प्रसाद, डॉ. व्ही. एन. वाघमारे, डॉ. सुनील महाजन, डॉ. शैलेश गावंडे, डॉ. पूजा वर्मा, आर. व्ही. सलामे, सरपंच रेखा गजघाटे, उपसरपंच राजहंस मांडवकर, डॉ. एस. एन. रोकडे, डॉ. उल्हास गलकाटे, निकिता देशमुख, जयश्री खोब्रागडे, अक्षय कांबळे, विजय गायकवाड, अश्विन मेश्राम, सौरभ घाटील उपस्थित होते.

अनुसूचित जाती संवर्गात उत्पन्न निर्मिती योजना तथा विज्ञान, तंत्रज्ञानाच्या माध्यमातून कौशल्य विकास कार्यक्रमाच्या माध्यमाने सर्वांगीण जीवनशैली सुधारणे, नवीन रोजगार निर्मिती संभावना, शेतीपूरक जोडधंदा हा या प्रकल्पाचा प्रमुख उद्देश असल्याचे डॉ. सिद्धार्थ वासनिक यांनी सांगितले. यावेळी केंद्रीय कापूस संशोधन संस्थेच्या वतीने गोधनी गावाला मोफत पॉवर विडर हस्तांतरित करण्यात आले. शिवाय कपाशीच्या वेचणीसाठी तयार करण्यात आलेल्या कापडी पिशव्यांचे, फवारणी करताना वापरण्यात येणाऱ्या फवारणी सुरक्षा संच निविष्ठांचेही वितरण शेतकऱ्यांना करण्यात आले.

पूरक व्यवसाय कराल तरच पुढे तराल

२० शेतकऱ्यांना मिळाल्या निःशुल्क शेळ्या

भारत सरकारतर्फे शेळ्या मिळाल्यानंतर आनंद व्यक्त करताना लाभार्थी व अधिकारी

♦ नागपूर, २९ जानेवारी

केवळ शेती करून आर्थिक उन्नती शक्य नाही. यामुळे शेतकऱ्यांनी उपन्नासाठी पूरक व्यवसायाची कास धरायला हवी. शेळीपालन हाही शेतकऱ्यांसाठी पूरक व्यवसाय आहे. अर्थात पूरक व्यवसाय करात तरच पुढे तराल, असे प्रतिपादन डॉ. सिद्धार्थ वासनिक यांनी केले.

भारतीय कृषी अनुसंधान परिषद, केंद्रीय कापूस संशोधन संस्था नागपूर यांच्या वतीने अनुसूचित जाती उपयोजना अंतर्गत कौशल्य विकास कार्यक्रम राबविता जात आहे. त्यानुसार पुण्यश्लोक अहल्यादेवी मेंढी व शेळी विकास प्रक्षेत्र बोंडी तालुका रामटेक जिल्हा नागपूर येथे मोफत शेळ्या वाटप करण्यात आल्या. याप्रसंगी डॉ. सिद्धार्थ वासनिक, डॉ. उल्हास गलकाटे, आर. व्ही. सलामे, इजाज अहमद, अक्षय कांबळे, विजय गायकवाड, अश्विन मेश्राम उपस्थित होते.

या कार्यक्रमाच्या अनुषंगाने उमरेड आणि पवनी या दोन तालुक्यातील २० लाभार्थ्यांना प्रत्येकी दोन याप्रमाणे एकूण ४० शेळ्यांचे वाटप केले. अनुसूचित जातीमधील लोकांचा सर्वांगीण विकास व्हावा, त्यांची आर्थिक प्रगती व्हावी, त्यांची जीवनशैली सुधारले, दारिद्र्यरेषेच्या वर सर्वांना आणणे हाच या योजनेचा प्रमुख हेतू आहे. त्यानुसार आपण सर्वांनी भारत सरकारच्या विविध योजनांचा लाभ घेत आर्थिक उन्नती करावी असेही आवाहन डॉ. सिद्धार्थ वासनिक यांनी केले. शेतीला पूरक अशा व्यवसायाची नितांत गरज असते.

जेव्हा केव्हा एखादा शेतकरी पूरक व्यवसाय करतो तेव्हा त्याचे लाभही मिळत असतात वर्तमान परिस्थितीचा अभ्यास करता शेतीला पूरक व्यवसायाची गरज आहे त्यामुळे शेतकऱ्यांच्या उपन्नात वाढ होते असे त्यांचे ताप मग त्यांच्या कुटुंबीयांना मिळतात.

शेळीपालन हा अत्यंत लाभदायक व्यवसाय असल्याचे डॉ. उल्हास गलकाटे यांनी सांगितले. त्यांनी शेतकऱ्यांना शेळ्या संगोपन कसे करावे, आरोग्य निगा कशी ठेवावी याबद्दल मार्गदर्शन केले.

नायगाव येथे अनुसूचित जाती विकास कृती आराखडा शेतकरी प्रशिक्षण

लोकसागर । प्रतिनिधी

खल्लार : भारतीय कृषी अनुसंधान परिषद केंद्रीय कापूस संशोधन संस्था, नागपूर मार्फत अनुसूचित जाती विकास कृती आराखडा (डी ए पी एस सी) योजने अंतर्गत शेतकरी प्रशिक्षण तथा प्रक्षेत्र दौरा या कार्यक्रमाचे आयोजन नायगाव, येथे करण्यात आले होते.

केंद्रीय कापूस संशोधन संस्था, नागपूर, येथील डॉ. जयंत मेश्राम प्रमुख शास्त्रज्ञ, पीक उत्पादन विभाग तथा नोडल ऑफिसर आर. एम. रामटेके वरिष्ठ तांत्रिक सहाय्यक, अब्दुल वसीम, तांत्रिक सहाय्यक, एस. आर. रामागडे कृषी अधिकारी, पंचायत समिती दर्यापूर रोशन काळे, सरपंच, ग्राम पंचायत नायगाव, तथा नायगाव येथील शेतकरी उपस्थित होते.

कार्यक्रमाच्या सुरुवातीला डॉ. जयंत मेश्राम यांनी उपस्थित लाभार्थाना अनुसूचित जाती संवर्गामध्ये उत्पन्न निर्मिती योजना, तथा विज्ञान व तंत्रज्ञानाच्या माध्यमातून कौशल्य विकास कार्यक्रमांतर्गत अनुसूचित जातींचे विकास व जीवनशैली सुधारणे, कृषि आधारित नवीन रोजगार निर्मिती संभावना, शेतीपूरक जोडधंदा इत्यादी बद्दल माहिती दिली. त्यांनी येणाऱ्या हंगामात कपाशीची पेरणी सघन लागवड पद्धतीने करावी असे आवाहन केले.

यावेळी आर. एम. रामटेके यांनी उपस्थित शेतकऱ्यांना हलक्या ते माध्यम स्वरुपाच्या जमितीत कपाशीची सघन लागवड करून एकरी उत्पन्न वाढविण्यावर भर दिला, तथा एकात्मिक अन्नद्रव्य आणि तन-नियंत्रण व्यवस्थापन या विषयी विस्तृत माहिती दिली. एस. आर. रामागडे यांनी पंचायत समिती अंतर्गत येणाऱ्या विविध कृषी विषयक योजनांची माहिती दिली तसेच शेतकऱ्यांनी या योजनांचा लाभ घेण्याचे आवाहन केले. सुत्रसंचा लन भूषण खंडारे यांनी केले तर अब्दुल वसीम यांनी आभार व्यक्त करून कार्यक्रमाची सांगता केली. कार्यक्रमाचे शेवटी गावातील कपाशीच्या शेतांची पाहणी करण्यात आली. या कार्यक्रमाच्या आयोजनामध्ये नंदकिशोर हिवराळे, निखिल मनोहरे विजय गायकवाड, अश्विन मेश्राम आणि यांचे मोलाचे सहकार्य लाभले.

CICR conducts farmers' meet under Devpt Action Plan for SCs

A woman cotton farmer receiving inputs under Development Action Plan for SC farmers from Dada Lad, the Chief Guest. Other dignitaries standing include Dr. P.K. Chakrabarti, Former Member, ASRB and, Research Advisory Chairman for CICR, Dr. D.M. Hegde, Dr. P. Ramasundaram, Dr. Kalpana Shastry and Dr. Pankaj Rathore, members RAC, Dr. Y. G. Prasad, Director and Dr. Jayant Meshram, Principal Scientist, ICAR-CICR, Nagpur.

■ Staff Reporter

CENTRAL Institute of Cotton Research (CICR), Nagpur organised a Farmers' Meet and input distribution programme under Development Action Plan for Scheduled Castes (DAPSC) on Tuesday at its premises.

Dada Lad, Developer of Dada Lad Technique of cotton cultivation and Organisational Secretary of Bharatiya Kisan Sangh of Maharashtra and member of CICR Institute Management Committee, was the chief guest. Dr P K Chakrabarti, former Member, Agricultural Scientist Recruitment Board and Research Advisory Chairman for CICR, was the guest of honour.

Other dignitaries present on the occasion included members of Research Advisory Committee including Dr D M Hegde, Dr P Ramasundaram, Dr Kalpana Shastry, and Dr Pankaj Rathore. Dr Y G Prasad, Director, ICAR-CICR, welcomed the participants and briefed them about various technological interventions being carried out on a large scale by CICR under the Ministry-sponsored Special Project and CCI-sponsored Pilot Project across eight States for enhanced cotton productivity in the country.

Dada Lad advised the farmers to adopt his technique of monopodial removal in cotton after 40 days of sowing and detopping after 90 days of sowing to realise seed cotton yield upto 20 quintals per acre.

Dr Chakrabarti emphasised upon frequent farmer-scientist interaction for timely solutions to various issues faced by farmers.

Dr Chakrabarti also spoke about the role of ICAR, which deals with different aspects of agriculture as a whole in farmers' welfare. During the programme, inputs consisting of knapsack sprayer, LED torch, and irrigation tubes were distributed to farmers at the hands of the dignitaries.

A technical session was held wherein Dr Jayanth Meshram explained the modalities of high-density planting system, Dr Shivaji Thube dealt with the damage symptoms and management of important sucking pest of cotton. Dr Shailesh Gawande spoke on the management of boll rot in cotton.

Dr Jayanth Meshram, Principal Scientist-cum-Nodal Officer, SCSP, was the Organising Secretary, and Dr Shailesh Gawande, Senior Scientist, coordinated the event. About 150 farmers from various villages of Wardha, Yavatmal, and Amravati districts attended the one-day event and got benefitted.

CICR gives power weeder to Godhani GP

LOKMAT NEWS NETWORK
NAGPUR, FEB 13

Indian Council of Agricultural Research - Central Cotton Research Institute (CICR), Nagpur recently organised Skill Development training at Godhani in Umred tehsil under the Centrally sponsored scheme Scheduled Caste Sub-Plan Programme.

On the occasion, Dr Y. G. Prasad, Director, ICAR-CICR Nagpur, Dr. V. N. Waghmare, Head, Crop Improvement Division, Dr. S. M. Wasnik, Principal Scientist (Agricultural Extension) & Nodal Officer (SCSP), other SCSP team members Drs. Sunil Mahajan, (Principal Scientist, Seed Technology), Shailesh Gawande (Scientist, Plant Pathology), etc. attended the programme.

At the outset, in his introductory remarks Dr. Siddharth Wasnik briefed about various crop demonstrations, animal health, horticultural and other activities undertaken under Scheduled Caste Sub-Plan (SCSP) for benefits of scheduled castes farmers.

He also outlined the various activities of CICR for farming communities such as Cotton FLDs, e-Kapas voice messages system, Mera Gaon Mera Gaurav, IRM dissemination for cotton pink bollworm, KVK, ARYA, Cotton App, etc.

Dr. Y. G. Prasad in his address appreciated the efforts of CICR SCSP team for dissemination of cotton and other agril technologies to the farmers timely and providing the needed support through various inputs to marginalized sections of society for increasing income. He appealed the farmers to avail CICR technologies and control timely pests and diseases in cotton and other crops.

Dr. V. N. Waghmare emphasized on increasing the yield of agriculture crops by adopting different crops enterprises instead of taking a single crop repeatedly.

ICAR-CICR holds 'Poshan Vatika Maha Abhiyan'

■ Staff Reporter

Scientists and officials during 'Poshan Vatika Maha Abhiyan'.

ICAR-Central Institute for Cotton Research (ICAR-CICR) conducted 'Poshan Vatika Maha Abhiyan' and one-day workshop on Integrated Pest and Disease Management in Cotton under the Scheduled Caste Sub-Plan at Dhurkheda village in Umred Tahsil recently.

Dhurkheda village is the adopted village under 'Mera Gaon Mera Gaurav' programme, on September 17, 2021. Scientists from various disciplines of CICR Nagpur and officials from state agriculture department participated in the workshop.

The 'Poshan Vatika Maha-Abhiyan' was inaugurated by the Minister of Agriculture, Government of India, Narendra Singh Tomar which was broadcast to the farmers through Live Webcasting.

Dr Shailesh Gawande, Scientist, Plant Pathology in his introductory speech, guided the farmers on the importance of coarse grains/millets in their diet and informed the farmers about its benefits. Dr S M Wasnik, Principal Scientist, Agricultural Extension and Nodal Officer, Scheduled Caste Sub-Plan, apprised the farmers about the technologies developed by the institute as well as about the CICR-Cotton App and e-voice message system available for information and urged the farmers to register their phone numbers to receive e-voice messages regarding advisories for cotton cultivation.

Later in the technical session, Dr Vivek Shah, Entomologist, provided guidance on integrated management of cotton sucking pests and bollworm. Dr Dipak Nagrale, Scientist, Plant Pathology, gave detailed guidance to the farmers on the causes of boll rot occurring over the last few years and their integrated management strategies.

Dr Neelkanth Hiremani, delivered the talk on identification and management of leaf spot diseases of cotton. Dr Shailesh Gawande delivered lecture on safe handling of pesticides and urged the farmers for strict adherence of label claim.

Dr Jayant Meshram, Principal Scientist, briefed the farmers on the management of Para wilt and leaf reddening in cotton. Dr Sunil Mahajan, Principal Scientist, Seed Technology, gave information about the inclusion of nutritious millet based food in the daily diet, presented samples of various nutritious millets and convinced the importance of millets to the farmers.

Dr Saravanan Scientist, Plant Breeding, introduced indigenous varieties of cotton developed by the ICAR-CICR.

The programme was coordinated by Dr Shailesh Gawande and Dr Neelkanth Hiremani proposed a vote of thanks. Akshay Kamble, Ashwin Meshram and Vijay Gaikwad also worked hard for success of the programme.

11. Awards and Recognitions

Under the Scheduled Castes Sub Plan (SCSP), several individuals and groups from rural Maharashtra have made exemplary contributions toward inclusive development, livelihood enhancement, and community empowerment. Mr. Neru Ramchandra Waghmare from Village Tirkhura, Tehsil Umred, District Nagpur, has effectively implemented advanced scientific techniques in "Livestock Management and Dairy Production," leading to increased milk yield, better animal health, and improved income stability for his family and surrounding farmers through knowledge sharing. Similarly, Mr. Gautam Shankar Kamble and Mr. Dnyaneshwar Mohan Mandavkar, both from Village Godhani, have demonstrated innovation and commitment in "Goat Farming," establishing sustainable small-scale enterprises that have become replicable models for other marginalized families seeking livestock-based livelihoods. Their efforts have contributed to nutritional security and rural employment generation. Mrs. Mangala Ashish Gajghate from Village Pipardol, Tehsil Umred, has successfully transitioned to "Organic Farming," significantly reducing the dependency on chemical fertilizers and pesticides. By adopting composting techniques, bio-fertilizers, and natural pest control methods, she has not only improved soil health and crop quality but also inspired a movement towards sustainable agriculture in her community. Her produce has started gaining recognition in local markets for its purity and health benefits. In a remarkable example of collective action, the Sakhi Saheli Mahila Bachat Gat, a women's self-help group from Village Durgada, Tehsil Deoli, District Wardha, has established a fully functional "Charkha Unit for Yarn Spinning." This initiative, rooted in traditional skills and powered by local resources, has empowered rural women by providing them with consistent income opportunities, skill development, and greater social confidence. The enterprise has not only revived indigenous craft practices but also created a pathway for self-reliance and grassroots entrepreneurship among marginalized women. In recognition of their outstanding contributions to rural development, sustainable agriculture, and social upliftment under the SCSP framework, these individuals and the self-help group were honoured by the institution on 12th August 2025 with prestigious awards including the "Progressive Livestock Farmer Award," "Progressive Farmer Award," and "Progressive Rural Entrepreneur Award." Their success stories stand as powerful testimonies to the potential of targeted development initiatives in transforming lives and promoting inclusive growth.

Dr. V.N. Waghmare, Director, ICAR-CICR awarded to SC farmers

Value chain Capture - Colour Cotton Project at Chh.Sambaji Nagar

Significant Success as Goat rearing Enterprize in Vidarbha Region

15. Success Stories

1. Organic and Natural Farming

Name: Mrs. Mangala Ashish Gajghate

Village: Pipardol, Ta. Umred, Dist. Nagpur

Implementing Institute: ICAR – Central Institute for Cotton Research

Recognition: Progressive Farmer Award – 2025

Mrs. Mangala Ashish Gajghate has emerged as a progressive farmer by successfully adopting organic and natural farming practices. She transitioned from chemical-based cultivation to eco-friendly agriculture to improve soil health and sustainability. With technical guidance, she established on-farm production units for Trichoderma and Dashparni Ark for biological disease and pest management. These natural inputs significantly reduced chemical pesticide use while improving crop vigor and soil fertility. She also adopted composting, green manuring, and bio-fertilizers to enhance productivity. Her organically grown produce gained better market acceptance due to its quality and purity, ensuring improved and stable income. Beyond her own farm, she actively shares knowledge with fellow farmers, especially women, motivating them to adopt sustainable practices. In recognition of her leadership and innovation, she received the Progressive Farmer Award in 2025.

2. Scientific Goat Farming

Name: Mr. Amit Yogiraj Narnavare

Village: Mendhepathar

Scheme: SCSP (2022)

Implementing Institute: ICAR – Central Institute for Cotton Research

Mr. Amit Yogiraj Narnavare successfully established a goat farming enterprise. Under SCSP in 2022, he received two goats as start-up support. By adopting scientific goat management practices such as proper housing, balanced feeding, timely vaccination, and disease prevention, he gradually expanded his unit to 22–23 goats. His dedication and effective time management enabled him to generate more than ₹2.00 lakh from goat sales. The enterprise strengthened his financial security and reduced dependence on a single income source. His success demonstrates how institutional support combined with youth commitment can promote sustainable livestock entrepreneurship. Mr. Narnavare's journey has inspired rural youth and professionals to adopt goat farming as a supplementary and profitable livelihood option.

3.Transforming Livelihood through Goat Farming

Name: Mr. Dnyaneshwar Mohan Mandavkar

Village: Godhani, Ta. Umred, Dist. Nagpur

Scheme: SCSP (2020–21)

Recognition: Progressive Livestock Farmer Award – 2025

Implementing Institute: ICAR – Central Institute for Cotton Research

Mr. Dnyaneshwar Mohan Mandavkar transformed his livelihood through goat farming with support under SCSP during 2020–21. He initially received two goats and feed assistance, which laid the foundation for his livestock enterprise. By following scientific practices including proper housing, balanced nutrition, regular vaccination, and health monitoring, he expanded his herd to about 51–52 goats. Through systematic breeding and management, he earned more than □2.50 lakh from goat sales, significantly improving his household income and financial stability. His enterprise created self-employment opportunities and ensured nutritional security for his family. Recognizing his progressive approach, he received the Progressive Livestock Farmer Award in 2025. His success serves as a model for marginalized farmers seeking sustainable income through livestock-based livelihoods.

4. Empowering Rural Women through Sewing Machine

Name: Ms. Vaishali Amol Kamble

Village: Gandhinagar, Tehsil Kalamb, District Yavatmal

Scheme: DAPSC (2024–25)

Implementing Institute: ICAR – Central Institute for Cotton Research

Ms. Vaishali Amol Kamble strengthened her livelihood through sewing machine support provided under DAPSC during 2024–25. Though trained in tailoring, she lacked the necessary equipment to start her own enterprise and depended on seasonal farm labour. After receiving a sewing machine, she shifted to full-time tailoring, stitching daily wear garments, school uniforms, blouses, traditional dresses, and undertaking alteration work. Her skills and dedication helped her build a steady customer base in her village and nearby areas. She now earns ₹400–500 per day, ensuring year-round income stability. The initiative improved her household financial condition, supported her children's education, and enhanced her confidence and social recognition. This intervention demonstrates how asset-based support can empower rural women through sustainable self-employment.

5. Promoting Sustainable Cotton Residue Management

Beneficiary: Baliraja Shetkari Sendriya Dhanya Uttpadak Gat

Village: Sherad, Tehsil Kalamb, District Yavatmal

Scheme: DAPSC (December 2024)

Implementing Institute: ICAR – Central Institute for Cotton Research

Baliraja Shetkari Sendriya Dhanya Uttpadak Gat addressed cotton residue management challenges with support under DAPSC in December 2024. The group received a Mobile Stalk Cotton Shredder along with operational training and field demonstrations. Previously, farmers relied on manual removal or burning of cotton stalks, causing pollution and nutrient loss. With mechanized shredding, residue burning has been eliminated, and shredded biomass is incorporated into the soil, improving organic matter and soil fertility. The intervention reduced labour costs and saved time. The group also provides custom hiring services to nearby farmers, earning □1,200–1,400 per acre and generating approximately □400 net profit per acre. This initiative promotes environmentally sustainable cotton farming while creating additional income opportunities for the farmer group.

6. Ambar Charkha Unit

Beneficiary: Sakhi Saheli Women's SHG

Village: Durgada, Tehsil Deoli, District Wardha\

Training: 8–17 August 2024

Distribution: March 2025

Implementing Institute: ICAR – Central Institute for Cotton Research

Sakhi Saheli Women's SHG strengthened its livelihood through capacity building and distribution of 10 Ambar Charkha units under DAPSC. The group underwent a 10-day intensive training programme covering cotton fiber preparation, spinning techniques, quality control, equipment maintenance, and basic entrepreneurship. After successful completion, 10 Ambar Charkha units were distributed in March 2025. Equipped with skills and assets, the group immediately initiated yarn spinning activities. Each unit generates about ₹200 per day, resulting in a collective income of approximately ₹2,000 daily. The initiative enhanced financial independence, teamwork, and confidence among members while promoting cotton-based value addition at the village level. This structured training combined with asset support demonstrates an effective women-centric livelihood model fostering rural entrepreneurship and economic resilience.

16. PROJECT TEAM

	Name	Designation
	**Dr. Jayant. H. Meshram**	**Principal Scientist (Plant Physiology) & Nodal Officer DAPSC**
	**Dr. Ramkrushna G. I**	**Sr. Scientist (Agronomy)**
	**Dr. S. P. Gawande**	**Sr. Scientist (Plant Pathology)**
	**Dr. B. B. Fand**	**Sr. Scientist (Entomology)**
	**Dr. N. S. Hiremani**	**Sr. Scientist (Plant Pathology)**

PROJECT TEAM

	Name	Designation
	**Dr. K. Shankarganesh**	**Sr. Scientist (Entomology)**
	**Dr. Kishor U. Tribhuvan**	**Sr. Scientist (Biotechnology)**
	**Dr. Pooja Verma**	**Sr. Scientist (Biochemistry)**
	**Dr. Sunil Mahajan**	**Pr. Scientist (Seed Science & Technology)**
	**Dr. U. V. Galkate**	**SMS (Veterinary Sciences), KVK**

PROJECT TEAM

	Name	Designation
	**Mr. Akshay Kamble**	**Technical Assistant-2**
	**Mr. S. H. Mandpe**	**Technical Assistant-2**
	**Mr. Akshay Barahate**	**Technical Assistant-2**
	**Mr. Vijay Gaikwad**	**Young Professional -1**
	**Mr. Ashvin Meshram**	**Young Professional -1**

PROJECT TEAM

	Name	Designation
	Dr. S. M. Wasnik	Ex Pr. Scientist (Agril Extension)
	Mr. Rakesh Kumar Jatav	Sr. Administrative Officer
	Mr. Sanjay Kumar Singh	Finance & Account Officer
	Dr. Y. G. Prasad	Former Director ICAR-CICR, Nagpur
	Dr. V. N. Waghmare	Director ICAR-CICR, Nagpur
